Call and get prices and satisfy yourselves that we sell good goods at lower prices than you can buy elsewhere.

Highest price paid in cash for mack erel.
MATTHEW & McLEAN,
Souris, July 25th, 1894.

Good Coffee.

It is asserted by men of high professional standing that when the system needs a stimulant, nothing equals a cup of good coffee. It is also affirmed by eminent physicians that Ayres' Sarsaparilla braces up the system, quickens flagging energies, increases the appetite, promotes digestion, and for all the purposes of a blood purifier is the most reliable, the most powerful as well as the cheapest medicine ever devised.

JAMES H. REDDIN,

BARRISTER-AT-LAW
NOTARY PUBLIC, &c.

CAMERON BLOCK,

HAWKER MEDICINE CO., Ltd.
St. JOHN'S, N. B.

Boots & Shoes

REMEMBER THE
OLD RELIABLE SHOE STORE
when you want a pair of Shoes.
Our Prices are the lowest in town.

A. E. McEACHEN,
THE SHOE MAN,
Queen Street

From the Old World.

(Paris Correspondence of the Philadelphia Catholic Times, Dec. 4.)
Events in the political world have quickened since my last letter. The Anglo-Russian understanding is an accomplished fact, and curiously enough, the matter is regarded in France not only without jealousy, but almost with approval.

For some years past nothing has been more remarkable than the change of public opinion in England with regard to Russia. Those who know the old country are aware of the deeply engrained hostility to the great northern power and the rivalries which have existed between them in Asia. For the present improved state of things great credit is due to the Prince of Wales, who with considerable self-denial has spent the last five weeks with the Imperial family in sympathy with their deep sorrow. The intimate friendship which exists between the heir to the British throne and the Czar of all the Russias leads to the belief that the Prince is perhaps the only person who thoroughly understands the up-to-the present unfathomable character of Nicholas II. Certain it is that his Royal Highness has performed a high service for his country in effecting so complete a reconciliation. The rumor is still persistent that England has consented to allow the Russian fleet to pass freely through the Dardanelles, and I am inclined to think that most statesmen hold the same view that M. Lockroy, Vice President of the Chamber of Deputies, expressed to me last week that the British Cabinet which consented to such an arrangement would not stand an instant against the storm of public indignation such a course would evoke. Nor is it easy to see what England could obtain from Russia in return for such an advantage.

As I have said above, France regards the situation without jealousy. The reason is not far to seek. The republic in the first place would not dare to display open hostility to any step approved by Russia. Secondly, it is thought that it may lead to a better understanding between France and Great Britain, a thing much wished for by thoughtful men in view of the thorny questions continually arising up between the two neighbors. And, thirdly, there is the latent hope that before long a new triple alliance, in which France will share, will not only preserve the balance in Europe, but inaugurate a great policy of progress and civilization in Asia and Africa.

A GREEK PATRIARCH IN PARIS.

Paris this week is giving hospitality to Mgr. Gregorius Youssef, Patriarch of Antioch, who is paying the French capital a short visit after his labors in Rome. The Patriarch is a tall, handsome old man, with a long white beard, dressed very much after the style of a Russian priest as a consequence of which his appearance in the streets is invariably accompanied by frantic cries of "Vive la Russie!" His Beatitude is staying with Mr. Mac Swiney, a gentleman well known in banking circles here and who is also a Papal Chamberlain. The Turkish flag is floating from his residence in honor of the distinguished guest, a subject of the Sultan, Mgr. Gregorius Youssef, the day following his arrival. On Saturday he lunched

PROPAGATION OF THE FAITH.

In connection with the resolutions passed at the Oriental Conference recently held in Rome, the Pope has nominated Cardinal Langenieux to be his Legate in connection with the work of the propagation of the faith at Lyons. The Abbe Landerieux has been appointed vicar general to the Legate. The object in view is to arrange on a firm basis the finances necessary for the zealous carrying out of the work for the reunion of the churches. It is also stated that the Holy Father will shortly recommend the Lyons Society for the Propagation of the Faith to the charity of the faithful throughout the whole world.

ADVENT IN PARIS.

The Advent season began well on Sunday last, as far as could be judged from the immense congregations which filled the principal churches both morning and afternoon. Special preachers have been appointed in the eighty parishes of the archdiocese, and as they are all well known and esteemed the Sunday afternoon sermon will be a great attraction during Advent. In many of the churches a solemn novena is now going on in preparation for the Immaculate Conception, a very favorite feast in France. The enormous number of worshippers who are flocking to the shrine of Our Lady of Victories during the novena is remarkable and edifying.

CARDINAL GONZALEZ.

The death of Cardinal Gonzalez on Friday last, although not altogether unexpected, has yet been received with much regret in France of which country his Eminence was always the firm friend and admirer. The deceased Cardinal, who belonged to the Dominican Order, was successively Archbishop of Seville, Archbishop of Toledo, Patriarch of the West Indies and Primate of Spain. He, however, resigned all his dignities in order to devote himself exclusively to philosophical and theological study, his Eminence ranking amongst the first Catholic writers on these subjects. Cardinal Gonzalez was a man of broad and elevated mind, and the fearless advocate of the moderate and pacific policy of Leo XIII. Spaniards of every party regarded him as the glory of their country, and the regret which the entire press, without exception, received the news of his illness which was an evidence of the universal reverence in which he was held. His Eminence died at the Dominican convent at Madrid, aged 63 years, surrounded by his brethren in religion. The absence of a man like Cardinal Gonzalez from the next octave is considered an irreparable loss. At his funeral the military honor due to a captain-general were paid the remains.

CARDINAL VADONAN ON THE SOCIAL DUTIES OF CATHOLICS.

In a pastoral letter addressed by Cardinal Vaughan to the clergy and faithful and read in all the churches of the Archdiocese of Westminster last Sunday the following striking passage occurs, suggestive somewhat of Cardinal Manning's familiar utterances: "Catholics cannot remain idle spectators of the great social movement which is thus being legally and constitutionally directed. They cannot live as aliens and strangers in the land of their birth as though they had no social, no civic, no religious duties to discharge in promotion of the welfare and happiness of their country. It will not suffice for them to perform their religious duties to God with exemplary piety, their domestic duties to the members of their household with tenderness and affection. More than this is required. They form an integral part of a larger family, the civil society, in which they live.

with Cardinal Langenieux, who is staying with the cure of Madeleine.

The Patriarch has also visited M. Charles Dupuy, Minister of the Council; M. Hanotaux Minister of Foreign Affairs, and yesterday he was received in private audience by the President of the republic, his Beatitude conversing with M. Casimir-Perier for about twenty minutes.

The public had their opportunity of seeing the venerable and picturesque Oriental prelate on Sunday morning, when the Patriarch celebrated the Divine Mysteries, according to the Malchite Rite in the little old church of St. Julien-Le-Pauvre, which for several years past has been allotted to the service of the United Greeks. Some idea of the ancient character of this church may be gathered from the fact that St. Gregory of Tours speaks of it as a basilica in his day and frequently said Mass at its altars. Last Sunday's functions were carried out with considerable pomp, as besides a large body of assistant Greek clergy the students of St. John Chrysostom's College sang with great taste the ritual music of the Greek liturgy.

ARRANGEMENTS, WAS TO AVOID OBTAINING OF THE OPPORTUNITIES PRESENTED BY RAPID COMMUNICATION, AND TO LESSEN THE DISTANCE AND TIME SPENDING IN FROM EACH OTHER.

Already, as you know, tenders have been called for by the Canadian Government for laying the Pacific cable, and it is gratifying to find that these tenders place the cost of the work within \$1,000,000 less than any estimate previously formed. One can judge by that fact of the possibilities of good results attending the conference. The carrying out of the undertaking must in a great part depend upon the action of Her Majesty's Government, as the project is too great for any one colony to materially aid it. But when I mention the fact that Canada stands ready to support it by a liberal subsidy, and that I believe the Australian colonies stand in the same position, and seeing also that the cost has been already lessened by \$1,000,000, you will realize how completely within our grasp that undertaking is at the present time. (Cheers.) Another undertaking was the establishment of a British line of steam communication between North America and Great Britain. Within a few weeks after the conference a vote was carried in the Canadian Parliament by which \$150,000 a year were pledged for that service, and the feeling of the Canadian people has been so thoroughly aroused from one end of the Dominion to the other that, although in some parts it has been assisting hand of Her Majesty's Government, the accomplishment of that object is as certain as any on the programme that has been laid down, and it is also completely within our grasp. The establishment of that service is a thing assured, and a thing assured within a very short time. (Cheers.) These are the results which have followed the assembling of the conference so far. The possibilities with regard to trade with all these colonies, at the Cape of Good Hope and in Australia and New Zealand, are very great. I have not the opportunity or strength to deal fully with them this evening, but in common with Lord Brassey I venture to hope that the influence of this meeting and the influence of all who sympathize with our projects, will be liberally extended to us, and that the feeling may be increased here as it exists in the most distant portions of the empire, that the day may come not only when the colonies should be united more closely together, but when they should have a more practically useful connection with the heart of the empire itself. (Loud cheering.)

(Loud cheering.)

ARRANGEMENTS, WAS TO AVOID OBTAINING OF THE OPPORTUNITIES PRESENTED BY RAPID COMMUNICATION, AND TO LESSEN THE DISTANCE AND TIME SPENDING IN FROM EACH OTHER.

Already, as you know, tenders have been called for by the Canadian Government for laying the Pacific cable, and it is gratifying to find that these tenders place the cost of the work within \$1,000,000 less than any estimate previously formed. One can judge by that fact of the possibilities of good results attending the conference. The carrying out of the undertaking must in a great part depend upon the action of Her Majesty's Government, as the project is too great for any one colony to materially aid it. But when I mention the fact that Canada stands ready to support it by a liberal subsidy, and that I believe the Australian colonies stand in the same position, and seeing also that the cost has been already lessened by \$1,000,000, you will realize how completely within our grasp that undertaking is at the present time. (Cheers.) Another undertaking was the establishment of a British line of steam communication between North America and Great Britain. Within a few weeks after the conference a vote was carried in the Canadian Parliament by which \$150,000 a year were pledged for that service, and the feeling of the Canadian people has been so thoroughly aroused from one end of the Dominion to the other that, although in some parts it has been assisting hand of Her Majesty's Government, the accomplishment of that object is as certain as any on the programme that has been laid down, and it is also completely within our grasp. The establishment of that service is a thing assured, and a thing assured within a very short time. (Cheers.) These are the results which have followed the assembling of the conference so far. The possibilities with regard to trade with all these colonies, at the Cape of Good Hope and in Australia and New Zealand, are very great. I have not the opportunity or strength to deal fully with them this evening, but in common with Lord Brassey I venture to hope that the influence of this meeting and the influence of all who sympathize with our projects, will be liberally extended to us, and that the feeling may be increased here as it exists in the most distant portions of the empire, that the day may come not only when the colonies should be united more closely together, but when they should have a more practically useful connection with the heart of the empire itself. (Loud cheering.)
