The Athanasian Creed

LAYMEN REMOVE DAMNATORY WORDS.

The House of Laity of the Church of England resumed consideration of the Revised Prayer Book at Westminster, on the 15th of June.

Mr. C. Marston, Lichfield, proposed to leave out from the Athanasian Creed the words, "which faith, except a man keep whole and undefiled, without doubt he shall perish eternally."

He said he wanted to take out of it the most terrible sentence which he believed had ever appeared in all history. And this in a book which pretends to supply the gospel of salvation of sinners.

He was only proposing to do in spiritual matters what had already been done in earthly matters. They no longer sent earthly heretics to the flames of Smithfield; why were they consigning them to far worse flames?

Mr. J. T. Cohen (London) seconded. Sir Edward Clarke, K.C., said the Athanasian Creed had spoiled the happiness of services for him on the great festivals of the Church for years and years.

"I have never said it," he added, "and would never dream of saying it. It has been a distress to me to hear choirs singing at the top of their voices these awful words, which I do not believe, and which I am sure ought not to be in our service."

Sir Robert Williams said he thought it was quite time the laity made their protest against the use of these damnatory clauses.

Mr. Marston's proposal was carried, but the question will come up again before the House for final approval. The House adjourned.

The present Prayer Book version reads: "They that have done good shall go into life everlasting; and they that have done evil into everlasting fire. This is the Catholic Faith: which except a man believe faithfully he cannot be saved."

Two Pupils of Newark School Have Leprosy

Drastic Measures Taken to Prevent Spread of the Dread Disease.

NEWARK, N.J., June 25.—The Board of Education here last night took drastic measures to protect children at the Avon Avenue school where two pupils were yesterday found to be suffering from leprosy. This came after eight teachers of the school threatened to resign unless preventative steps were taken. As a result 1500 school books were ordered destroyed and all rooms and corridors in the school thoroughly fumigated to prevent spread of the disease.

Meanwhile Hale and Frank George, 11 and 13, respectively, are at Soho isolation hospital while their home has been ordered closed. In view of the fact that the father is not a United States citizen, having come from Bermuda about six years ago, Federal authorities are taking a hand in the case and it is stated will probably deport the entire family.

The two boys suffering from the malady will be sent to the leper colony at Carrville, La.

New Wireless Marvels

Senator Marconi, in the Wireless Magazine, opens up a vista of tremendous possibilities from the newly discovered properties of short electric waves:

I am now firmly convinced that the day is fast approaching when beam stations, using short waves end employing a fraction of the power utilized in the present high-power stations, in with much lower and fewer masts, will be able to carry on communication at practically any time between any two points of the earth's surface. We may be on the threshold of a day when broadcasting also will have its range enormously increased. Within a year or two the voice of the King of England, for example, may be easily and clearly heard by millions of his subjects as far apart as India, Australia, Canada, and South Africa.

French Trade Surplus of Exports Over Imports

The official figures concerning France's foreign trade during April last as compiled by the French customs authorities and transmitted to the Bankers Trust Company of New York by its French Information Service, reveal a surplus of exports over imports of 568,775,000 francs. This figure represents an increase of 51,232,000 francs over the figure for the favorable balance for February.

Exports for the month were 3,557,744,000 francs and imports were 3,050,968,000 francs. Exports show a decrease of 204,500,000 francs over the month of March and of 459,442,000 francs over April of 1924. Imports are 255,732,000 francs lower than in March of this year and 222,241,000 francs lower than in April of last year.

Calculated by weight, France's imports and exports during April this year show a decrease of 289,402 tons and 410,933 tons respectively as compared with March.

For the first four months of 1925 French exports totalled 14,477,664,000 francs as against 14,990,141,000 in the same month of 1924 while imports totalled 12,876,608,000 francs in 1925 as against 13,490,347,000 in 1924. The excess of exports was 1,601,056,000 francs in 1925 and 1,499,794,000 in 1924.

France's trade with the United States is growing in value as regards imports but shows a decrease in exports, according to French official trade figures for the first four months of the present year. These figures indicate that France imported 2,208,070,000 francs worth of goods from the United States as against 2,199,568,000 francs worth during the same period last year. This increase places the United States at the head of those countries exporting goods to France, the second place being held by Great Britain whose exports to France for the period January 1 to April 30 of this year totalled 1,562,491,000 francs as against 1,785,292,000 francs for the corresponding period last year.

An analysis of the figure representing France's exports shows however, according to advice received by the Bankers Trust Company that the United States holds only the fourth place on the list of countries importing goods from France, coming after Great Britain, Belgium and Germany with purchases having a total value of 1,043,029,000 francs for the first four months of this year as against 1,251,573,000 francs for the first four months of this year as against 1,851,573,000 francs for the first four months of last year.
