A VOTE FOR ALEX. D. CHAPLIN IN THE RIDING OF KENT MEANS

THAT the people of Kent will assist in bringing back the Conserva-
tive Administration of Rt. Hon. Arthur Meighen, Canada's
ablest Statesman and administrator.

THAT Canada will, once more, have a fair opportunity to become
prosperous, with success and contentment reigning in the
homes of the land.

THAT the administration of the affairs of this country will be
placed upon the highest plane, where every man, regardless of
color, race or creed, will be given a square deal.

THAT industry will flourish as it has never done before, and
whereas now we have empty factories and lack of employment,
then we will have busy shops, thriving industries, and plenty
of work for every man to do.

THAT the farmers, as well as the manufacturers will have the
Home Market to themselves, to develop Canada's resources
through the employment of Canadian men and Canadian
women. The Home market is the best for the Canadian farmer,
but it cannot be preserved without the assistance of the ade-
quate protection which the Conservative party offers.

THAT the National Policy of Sir John A. Macdonald, to which
Canada owes the share of prosperity she has received in the
past, will be placed back in the hands of the people most cap-
able of administering it.

VOTE FOR CHAPLIN

Assist in Bringing Back our Men and Women
from the States by Providing them with
Means to Make a Living.
