New York, Feb. 23 .- Prince Henry of

boats sounded their whistles, and the

ever-increasing fleet of tugboats kept

up their noise. The big liners in port were dressed, and the German colors

were displayed at several points along

the harbor shores. The last greeting up the river was from the imperial

HELPS TEMPERANCE

Widening London Streets Abolishes Many Public Houses.

London, Feb. 23 .- It is a most expensive temperance work that the London County Council is at present carrying out, but it is not designated as such, nor is the general public aware of the fact. Yet within the last three years the London County Council has devoted more than \$1,250,000 to the practical work of temperance. It is one of the consequences of the extensive improvements being made in London at present. When acquiring property for the necessary widening of different streets, many public-houses with licenses and good-will, come into not forget the old ones, and we assure the possession of the council. These will always remember with properties are very valuable, but the gladness the many lessons we learned council, instead of renewing them for under your leadership and the many premises in the neighborhood, is delibsociable and happy times spent toerately giving them up, seeing at the Signed on behalf of the Ilderton Sabbath school, Maggie McDonald, Annie Loft. same time, that no new licenses for

In this way the number of public houses in London has been diminished by 103, which were valued at \$1,372,750.

Convalescence

Convalescence is sometimes merely apparent, not real, and especially is this true after such diseases as pneumonia, typhoid fever and the grip. To make it real and rapid, there is no other tonic so highly to be recommended as Hood's Sarsaparilla.

This great medicine cleanses and renews the blood, strengthens all the organs and functions, and restores health. Take Hood's.
