John D. Rockefeller

THOU SHOPPER

Consider His Ways

This advice is given because Mr. Rockefeller is an improvement upon the fabled aut --- formerly chief example of hustle

It is related of the richest American that, in reply to a friend, who asked him about the reasons of his success, he said, in effect;

I Think My Business Success Is Due Largely to Having Always Tried to Place a Proper Value Upon Units. . .

This idea is so big, so all-embracing, that it is a safe creed for any one, business-man or who-not. It goes beyond the ant and the "busy bee" who have preached--chiefly long hours of labor !

The shopper-which means the universal woman and the nine-tenths universal man--has a daily opportunity to test the unit ruleto buy one thing at the right store and right price before making a second purchase, and to repeat the process indefinitely-thus making right buying yield a real income, as over wrong buying, at the end of the year. Of course, only shoppers who study advertise-ments are able to place a "proper value on units," so that the point of this preachment is plain.
