**THE LATE MISS CALVERT.**  
The Strathroy Age has the following  
reference to the late Miss Luella Mercedes  
Calvert, whose death was noted last  
week:  
Miss Calvert was born in Napier and  
resided there continuously until the  
family moved to Strathroy, a few years  
ago. She received her primary educa-  
tion in the village school and later at-  
tended our Collegiate Institute, where she  
became a general favorite with the stu-  
dents. Possessed of an omnipresent  
genial smile and a kindly interest in the  
welfare of her friends, she easily ingrat-  
iated herself into the hearts of those  
among whom she mingled. Thus her  
circle of acquaintances was ever widening.  
The fact of her wide popularity was at-  
tested by the great gathering of friends  
assembled at the home yesterday after-  
noon, to pay their last tribute of respect.  
The funeral took place Wednesday after-  
noon at 2 o'clock to the Strathroy ceme-  
tery, and was largely attended, showing  
the esteem in which deceased was held.  
Rev. W. J. Knox, assisted by Rev. Dr.  
Macdonald, of Kilmartin, conducted the  
services at the house and grave. Those  
who bore the remains to its last resting  
place were Messrs. A. W. Bixel, S. Suther-  
land of Toronto, A. L. Leitch, J. C.  
Eliot of Glencoe, and Jas. W. Macdon-  
ald and D. H. Patterson of this town.  
Among those who attended the obse-  
quies from a distance were: Mrs. C.  
Sutherland, Napier; David Calvert, of  
Mandamian; Mrs. and Miss Fowler, of  
London; W. H. Sutherland of Toronto;  
Mr. and Mrs. A. R. Auld, Mr. and Mrs.  
Inwood, T. H. Hamilton, A. R. Mc-  
Tavish, all of Toronto; W. S. Surtees,  
Ottawa; Mrs. (Dr.) Galbraith, Dresden;  
and Mrs. Lynd and C. Elliot, of London.  
The floral offerings were probably the  
most numerous and handsome ever  
seen in Strathroy and were the tokens  
of respect and sympathy from relatives and  
friends in Ottawa, Toronto, London, Pe-  
trolea, Strathroy and other places. A  
carriage was required to convey them to  
the cemetery.

**Ever Have Cramps.**  
Kind of fierce to be tied up in a knot at  
midnight with cramps. Keep Nerviline  
handy. Ten drops quies cramps instantly.  
Used occasionally Nerviline prevents this  
trouble entirely. From Strathroy, Ont.,  
Wm. Des, writes: "Nothing I know of  
will give such quick relief to cramps, colic  
or pain in the stomach as Nerviline. If you  
feel queasish or sick, just take ten drops of  
Nerviline in water and you're well next  
minute." Think of the protection and com-  
fort contained in a 25c bottle of Nerviline,  
and get it today.

**Army Orders.**  
During the Boer war many British  
officers lost their lives because of having  
carried their swords into action, the wea-  
pons enabling the Boer riflemen to dis-  
tinguish officers from the rank and file.  
The losses became so serious that orders  
were issued for officers to carry rifles and  
equipment similar to that of the private  
soldier. These orders have remained in  
existence up to the present time, but  
their further necessity is now a matter of  
debate.

**Prominent Manufacturer Speaks.**  
In Vanleek Hill, Ont., no one is better  
known than Geo. S. Watson. When he  
says "Catarrh is a real cure," depend  
on it being so. "My wife's" writes "I  
subject to had attacks of throat irritation  
and bronchitis. Many remedies were tried  
but few proved at all useful. Catarrh is  
was different. It seemed to get right at  
the sore spots and brought relief quickly.  
We have found Catarrh is an absolute  
cure for bronchitis and catarrh. No other  
cures more quickly so get it today, two  
sizes, 25c and \$1.00 at all dealers.

**Serious Accident.**  
Mr. Oscar Brooks, of the second line  
Plymouth, was the victim of a very pain-  
ful and serious accident on Saturday after-  
noon last. Mr. Brooks is employed by  
Alexander Bros. of Wainstead, to work on  
their threshing outfit. The machine  
was being moved on Saturday and while  
stepping from the water tank to the en-  
gine, Mr. Brooks slipped on the rubber  
hose on top of the tank and fell beneath  
the wheels, one wheel passing over his  
body, injuring him internally. He was  
very seriously hurt and his recovery is as  
yet uncertain.

**How Not to Sleep.**  
Don't sleep on your left side, for it  
causes too great a pressure of the heart.  
Don't sleep on the right side, for it  
interferes with the respiration of that  
lung.  
Don't sleep on your stomach, for that  
interferes with the respiration of both  
lungs and makes breathing difficult.  
Don't sleep on your back, for this  
method of getting rest is bad for the ner-  
vous system.  
Don't sit sleeping in a chair, for your  
body falls into an unnatural position and  
you cannot get the necessary relaxation.  
Don't sleep standing up, for you may  
topple over and crack your skull.

**A Question Often Asked.**  
Why so many people feel worse after tak-  
ing pills than before? Trouble is that dra-  
tic pills are used. No remedial action is  
obtained, the bowels are irritated and dread-  
ful constipation follows. In using Dr.  
Hamilton's Pills you are scarcely conscious  
of having taken medicine. Although very  
mild, Dr. Hamilton's Pills do regulate the  
bowels, stimulate normal action of the  
glands, and create either nausea, griping or  
violent action. Positively guaranteed for  
biliousness, indigestion, stomach, liver and  
kidney ills. For a safe family pill rely on  
Dr. Hamilton's, 25c per box at all dealers.

**BY-LAW NO. 10, 1907**  
**OF TOWNSHIP OF WARWICK.**  
A By-law to provide for drainage work in  
the Township of Warwick in the County  
of Lambton, and for borrowing on the  
credit of the municipality the sum of  
Eight Hundred and Fifty Five Dollars,  
the portion to be contributed by the said  
municipality for completing the same.  
Provisionally adopted the 2nd day of  
September, 1907.

Whereas, Duncan McGill, one of the  
parties interested in and assessed for the  
construction of the Higgins Local Drain,  
has petitioned the Council of the said Town-  
ship of Warwick to have the said drain  
cleaned out and put in a proper state of  
repair;

And whereas, thereupon the said Council  
has procured an examination to be made by  
C. A. Jones, being a person competent for  
such purpose, of the said area proposed to  
be drained and the means suggested for the  
drainage thereof, and of other lands and  
roads liable to assessment under the Mun-  
icipal Drainage Act, and has also procured  
plans, specifications and estimates of the  
drainage work to be made by the said C. A.  
Jones, and an assessment to be made by  
him of the lands and roads to be benefited  
by such drainage work and of other lands  
and roads liable for contribution thereto,  
stating as nearly as he can the proportion  
of benefit, outlet liability and injurious  
liability, which in his opinion will be de-  
rived or incurred in consequence of such  
drainage work, by every road and lot or  
portion of lot, the said assessment so made  
being the assessment thereon by this  
By-law enacted to be assessed and levied  
upon the roads and lots or parts of lots  
hereinafter in that behalf specially set forth  
and described; and the report of the said  
C. A. Jones in respect thereof and of the  
said drainage work being as follows:—

Petrolea, June 24th, 1907.  
To the Municipal Council, Township of Warwick.  
GENTLEMEN:—In compliance with instructions  
received from your Honorable Body I have made an  
examination of the Higgins Drain, lots 2 to 11, com-  
missioned by you, of your Township and find the  
same considerably out of repair, more particularly  
the portion on the west 1/2 and east 1/2 lot 6, where it  
is evidently trapped in more than elsewhere by  
catt pasture on these lots.  
I would recommend that it be repaired from the  
centre of lot 11 to its junction on lot 2, with the  
Higgins or Townline Drain, though the work on lot  
2 merely be removing the drift wood that has  
collected in it on this lot. The work across lot 3,  
from the Higgins Drain to the Townline Drain, con-  
sisting principally of levelling the bottom and  
making it an even grade.  
I have also examined and levelled the proposed work  
in stations of 2 chains or 8 rods each, commencing  
with stake 10 at or near the line between the east  
1/2 of lot 10 and lot 11, the portions from stake 9  
to 10 on the east 1/2 of said lot being in my opinion  
deep enough and wide enough as it now is.  
The work on lot 11 will be to remove the head to  
stake 10, which is 44 rods east of the 6-7 side road and  
from stake 10 to the outlet it will be 5 ft. This is 1 ft.  
shorter than when last repaired but as it can be made  
this width now without interfering with the sides  
and yet making the side slopes 1 horizontal to 1  
vertical I deem it advisable to do so.  
I have prepared a plan of the locality, profile of  
the drain, estimate of cost and specification of the  
work together with a schedule of assessment on the  
lands affected, all in triplicate, one copy being for  
service on the Municipality of Brooke, and one for  
the Municipal Council of Warwick, all of which I herewith  
submit.  
Following is my estimate of the cost of the pro-  
posed work:  
Excavating at 10 to 172, 648 rods at 45 cts per  
rod.....\$291.60  
Excavating at 172 to 202, 120 rods per rod.....108.00  
Excavating at 202 to 272, 250 rods at 70c per  
rod.....175.00  
Excavating at 272 to 290, 96 rods at 20c per rod.....19.20  
Removing driftwood at 290 to 307 1/2 at junction 5.00  
Building culvert on 6-7 side road, 10 ft. clear  
20 ft. long.....60.00  
Building culvert on 10 side road, 8 ft. in clear  
10 ft. long.....55.00  
Publishing by-law Township of Warwick.....10.00  
Right-of-way by-law.....2.00  
Excavating at 307 to 320, 120 rods per rod.....108.00  
I have staked out by-law Township of Brooke.....8.00  
Registering by-law.....2.00  
C. A. Jones fees.....10.00  
Letting and inspecting work.....25.00  
Survey, plan, profile and report in triplicate.....90.25  
Assessment on survey.....9.15  
Total estimated cost of work.....\$902.00

**SPECIFICATIONS OF WORK.**  
The drain is to be deepened to the depths and  
dimensions shown and figured on the accompanying  
profile. The bottom to be made an even grade be-

tween stakes and the sides sloped 1 horizontal to 1  
vertical but the present banks are not to be dis-  
turbed. Should any error appear in the figured  
depth at any station the grade is nevertheless to be  
made to conform with that shown on the profile.  
The depth of the drain is from the ground beside  
the stake on the side next the drain. The depths  
figured on profile below the grade line represent ap-  
proximately the amount of deepening opposite each  
stake.  
The earth from the excavation is to be cast about  
equally on each side of the drain where there is no  
fence constructed along one side thereof and where  
there is a fence so constructed the earth is all to be  
cast to the side opposite the fence and in all cases at  
least 3 ft. clear of the edge.  
Any fences the contractor may require to take  
down in the prosecution of the work shall be replaced  
by him as soon as that portion of the drain is com-  
pleted.  
Remove all logs or driftwood from the drain be-  
tween stations 290 and 307, through which portion  
there is no excavation.  
Build a culvert on the 6-7 side road over the drain,  
to be 10 ft. wide in the clear and 20 ft. long, to be at  
least 9 inches higher than the present one, to have  
7 posts on each side placed at 3 ft. centres, sunk at  
least 2 ft. below the bottom of the drain as com-  
pleted, to be at least 8 inches diameter at the small end.  
A similar culvert to the above, only 8 ft. wide in  
the inner face of the posts at the top and well spiked  
thereto. Stringers to be 3 inches by 14 inches by 12  
feet pine and covered with 3 inch pine plank, the  
posts to be backed on the outside with 2 inch elm or  
hemlock plank the full depth of the drain.  
All the work to be done to the entire satisfaction  
of the commissioner in charge of the work.  
I have the honor to remain,  
Your obedient servant,  
C. A. Jones, O.L.S. & C.E.

4th. For paying the sum of \$89.00 the  
amount assessed against the said roads and  
lands of the Municipality and for covering  
interest thereon for 5 years at 4 per  
centum per annum, a special rate on the  
dollar sufficient to produce the required  
yearly amount thereof shall over and above  
all other rates be levied and collected, (in  
the same manner and at the same time as  
other taxes are levied and collected) upon and  
from the whole rateable property in the said  
Township of Warwick in each year for 5  
years after the final passing of this By-law  
during which the said debentures have to  
run.

5th. This By-law shall be published once  
in every week for four consecutive weeks in  
the GUIDE-ADVOCATE newspaper, published  
in the village of Watford, and shall come in-  
to force upon and after the final passing  
thereof, and may be cited as the Higgins'  
Drain By-law.

Reeve \_\_\_\_\_ Clerk \_\_\_\_\_

And whereas the said Council are of the opinion  
that the drainage of the area described is desirable,  
Therefore the said Municipal Council of the said  
Township of Warwick pursuant to the provisions of  
The Municipal Drainage Act enacts as follows:

1st. The said report, plans, specifications, assess-  
ments and estimates are hereby adopted, and the  
drainage work as therein indicated, and set forth  
shall be made and constructed in accordance therewith.

2nd. The Reeve of the said Municipality may  
borrow on the credit of the corporation of the said  
Township of Warwick the sum of \$855.00, being the  
said Municipality's proportion of the funds necessary  
for the work and may issue debentures of this cor-  
poration to that amount in sums of not less than  
\$50.00 and payable within five years from the date  
thereof with interest at the rate of 4 per centum per  
annum, that is to say in five equal annual payments  
of \$171.00 each, such debentures to be payable at the  
office of the Treasurer and to have attached to them  
coupons for the payment of interest.

3rd. For paying the sum of \$840.50, the amount  
charged against the said lands and roads for bene-  
fit and the sum of \$855.00 the amount charged against  
the said lands and roads for outlet liability, apart  
from lands and roads belonging to or controlled by  
the Municipality and over interest thereon for  
five years at the rate of four per centum per annum,  
the following total special rates over and above all  
other rates shall be assessed, levied and collected (in  
the same manner and at the same time as other taxes  
are levied, and collected) upon and from the under-  
mentioned lots and parts of lots and roads and the  
amount of the said total special rates and interest  
against each lot or part of lot respectively shall be  
divided into five equal parts and one such part shall  
be assessed, levied and collected as aforesaid in each  
year for five years after the final passing of this By-  
law, during which the said debentures have to run.
