

represented by nine varieties, is one of the best in quality grown in Canada, and, with the transportation facilities afforded, forms an important export commodity. In 1912 over 1,200 cars were shipped to various

parts of Canada, and exported. In addition there were splendid specimens of three varieties of British Columbia peaches, six of plums, cherries, pears, crabapples, nectarines and tomatoes.

The display of fresh fruit was surmounted by prize bottled fruit and honey. A portion of the bottled fruit which attracted considerable attention was that prepared for the C.P.R. dining car service, which is all produced and prepared on the farm of Mr. James Johnston, Nelson, B.C.

There are also unexcelled opportunities for agricultural farming in the province, there being at the present time about 15,000,000 acres of rich prairie land capable of producing best quality crops.

For further information, apply to J. W. Brandrith, Commissioner for British Columbia, Boundary Bay, B.C.

merland. Mr. J. H. Grisdale, Director Experimental Farms, has been going over the ground. It is expected the farm will be devoted mostly to cattle, fruit and poultry.

British Columbia fruit growers are meeting with keen competition from Yakima and Wenatchee growers. The reduction in freight rates on the railroads south of the line have enabled the latter to sell at even lower prices than last year.

Experiments in cover crops have been carried on in the Kootenay district by M. S. Middleton, Assistant Provincial Horticulturist

THIS WASHER MUST PAY FOR ITSELF.

A MAN tried to sell me a horse once. He said it was a fine horse and had nothing the matter with it. I wanted a fine horse, but, I didn't know anything about horses much. And I didn't know the man very well either.

So I told him I wanted to try the horse for a month. He said "All right," but pay me first, and I'll give you back your money if the horse isn't all right.

Well, I didn't like that. I was afraid the horse was not "all right" and that I might have to whistle for my money if I once parted with it. So I didn't buy the horse, although I wanted it badly. Now, this set me thinking.

You see I make Washing Machines—the "1900 Gravity" Washer.

And I said to myself, lots of people may think about my Washing Machine as I thought about the horse, and about the man who owned it.

But I'd never know, because they wouldn't write and tell me. You see I sell my Washing Machines by mail. I have sold over half a million that way. So, thought I, it is only fair enough to let people try my Washing Machines for a month, before they pay for them, just as I wanted to try the horse.

Now, I know what our "1900 Gravity" Washer will do. I know it will wash the clothes, without wearing or tearing them. In less than half the time they can be washed by hand or by any other machine.

I know it will wash a tub full of very dirty clothes in Six Minutes. I know no other machine ever invented can do that, without wearing the clothes. Our "1900 Gravity" Washer does the work so easy that a child can run it almost as well as a strong woman, and it doesn't wear the clothes, fray the edges, nor break buttons, the way all other machines do.

It just drives soapy water clear through the fibres of the clothes like a force pump might.

So, said I to myself, I will do with my "1900 Gravity" Washer what I wanted the man to do with the horse. Only I won't wait for people to ask me. I'll offer first, and I'll make good the offer every time.

Let me send you a "1900 Gravity" Washer on a month's free trial. I'll pay the freight out of my own pocket, and if you don't want the machine after you've used it a month, I'll take it back and pay the freight too. Surely that is fair enough, isn't it?

Doesn't it prove that the "1900 Gravity" Washer must be all that I say it is?

And you can pay me out of what it saves for you. It will save its whole cost in a few months in wear and tear on the clothes alone. And then it will save 50 to 75 cents a week over that in washwoman's wages. If you keep the machine after the month's trial, I'll let you pay for it out of what it saves you. If it saves you 50 cents a week, send me 50 cents a week 'till paid for. I'll take that cheerfully, and I'll wait for my money until the machine itself earns the balance.

Drop me a line to-day, and let me send you a book about the "1900 Gravity" Washer that washes clothes in six minutes.

Address me personally:

B. G. MORRIS, Manager, "1900" Washer Co., 357 Yonge St., Toronto.
