

## We Have Supplied Libraries

to a great many Sabbath Schools during recent months and we would like to add your school to our list.

There is a rapidly growing opinion among Sabbath School workers that the Library is a valuable and important feature of the school and that it deserves the same care and attention as other departments.

It is important to fill the child's mind with a love for choice literature, and to so train his choice of reading that in after years he will discriminate between the good and the bad and reject what is worthless. If children are left to themselves, very often they will not choose the best reading, but prefer what is bad. If a love for good books becomes characteristic of pupils the school may become the centre of attraction.

Keep the library fresh and up-to-date by frequent additions of new books and you will be surprised at the results. A few new books added every now and then will stimulate interest and establish a successful library. Try the plan of adding a few books every month. September is a good month to begin.

Here is a short list of new books, but send for our large catalogue which is mailed free to any address, and ask about our terms and discounts.
