"One little fire-cracker eager for a lark;
Two little shavings ready for a spark;
Three little papers in a pretty little blaze;
Four little flames going all sorts of ways.
Five little dry sticks just in time to burn;
Six old timbers waiting for their turn;
Seven great stories full of fire and fright;
Eight burning buildings—such a sorry sight;
Nine big blocks—up in flames they leap;
Ten million dollars in a blackened heap."

PANTASOTE!

Pantasote Mackintosh materials for shooting coats, tents, blankets, ground-sheets, and all sportsman's equipments, combine the advantages of lightness of weight, of being wind-proof and rain-proof because non-porous, and of warmth because retaining the body heat; are free from odor and unlike rubber, will not disintegrate, or become hard or sticky under any climatic conditions.

Pantasote Leather upholstery materials are indistinguishable from leather in appearance, will outwear all but the most expensive leather, and sell for one-half the cost of ordinary leather

Pantasote has been tested for nine years in railway, steamship and furniture upholstery and is sold in large quantities in Europe and America. For prices, samples, etc., address
