CHATHAM, ONT., May 5th, 1894.

GENTLEMEN,—I subjoin a comparative statement that will prove equally as gratifying to you as it is to us. As I said to you over eighteen months ago, the "Rogers," in my opinion, would be the machine that would be generally adopted and I believe subsequent events have clearly demonstrated the fact that it is rapidly coming into popular favor with the publishers.

Yours truly, S. STEPHENSON.
