UTILITY PAD

(PATENT APPLIED FOR)

Specially Useful for —

**Lawyers, Ministers, Editors,
Reporters and Students.**

A glance at the above cut will show at once how this Pad is made. The paper and board being cut to the desired size, a square notch is punched, by means of a special die, on both sides, about one-quarter of an inch from the top, between these and around the Pad a rubber band is stretched sufficiently strong to hold all the papers in their places.

The advantages of this Pad are many. A leaf may be detached and still be replaced without any trouble. The leaves may be turned back as freely as in a note book without detaching, and as they are not pressed back or laid aside no blotting is necessary.

Indiscriminate notes can therefore be made and afterwards sorted at the will of writer.

Price to the Trade, \$7 per 100.

**THE COPP, CLARK CO., LTD.
TORONTO**
