

NEWS AND NOTES.

A new English daily newspaper, the *Morning News*, was started at Paris on Wednesday, chiefly designed for the American colony.

Eagar's Phospholine is a PERFECT emulsion. It will mix with water, milk, or in fact anything, and with water the mixture resembles, both in appearance and taste, the well known article milk.

The Marquis of Lorne will preside at the festival of the Scottish Corporation, to be held in London, England, on St. Andrew's day next, the 30th of November.

Eagar's Wine of Rennet is said to be superior to any preparation of Rennet in the market, being pleasanter to the taste, richer in digestive principle, and makes a more uniform and better junket.

A successful attempt has been made in London to propel street cars by the direct application of compressed air.

Don't fill the system with quinine in the effort to prevent or cure Fever and Ague. Ayer's Ague Cure is a far more potent preventive and remedy, with the advantage of leaving in the body no poisons to produce dizziness, deafness, headache, and other disorders. The proprietors warrant it.

Books, it is said, may be efficient agents in spreading disease. Its germs may be long preserved between the covers and leaves, and so spread among families.

The relaxing power of *Johnson's Anodyne Liniment* is almost miraculous. A gentleman whose leg was bent at the knee and stiff for twenty years had it limbered by its use, and the leg is now as good as the other.

A species of spider has been found on the African coast, whose web, long and firm, resembles yellow silk. An attempt will be made to introduce it into France.

The evil consequences resulting from impure blood are beyond human calculation, so are the vast sums expended in worthless remedies. *Parsons' Purgative Pills* make new rich blood, and taken one a night for three months will change the blood in the entire system.

The Italians dry and pulverize the pulp of the tomato. The ripe tomatoes are macerated, and, when reduced to a thin pulp, it is strained to remove the seeds, cores, etc.

"Dr. Benson's Skin Cure cured my Eczema of the scalp." Jno. A. Andrews, Att'y at Law, Ashton, Ill.

At the Fisheries Exhibition in London may be seen a lobster, sent from this country, which weighs about twenty-eight pounds and is three feet long. One of its claws weighs eight pounds.

Who has not seen the fair, fresh young girl, transformed in a few months into the pale, haggard, dispirited woman? The sparkling eyes are dimmed, and the ringing laugh heard no more. Too often the causes are disorders of the system which Dr. Pierce's "Favorite Prescription" would remedy in a short time. Remember that the "Favorite Prescription" will unfailingly cure all "female weaknesses," and restore health and beauty. By all druggists. Send three stamps for Dr. Pierce's treatise on Diseases of women, (96 pages.) Address *World's Medical Association*, Buffalo, N. Y.

Prof. Dieulafait, while he admits that it is by no means certain that metal bearing minerals are all of sedimentary origin, contends that they have been extracted from the older rocks by sea water.

For Toothache, Burns, Cuts and rheumatism, use Perry Davis' Pain Killer, see adv. in another column.

High medical authority denounces blinkers upon horses as useless, ugly, and hurtful to the eyesight. The eye is the most beautiful and expressive of the equine features, and it should both see and be seen.

Young, old, and middle-aged, all experience the wonderful beneficial effects of Ayer's Sarsaparilla. Young children suffering from sore eyes, sore ears, scal-head, or with any scrofulous or syphilitic taint, may be made healthy and strong by its use.

Coal has been found near Lemars, Iowa. The drill passed through fifty-nine inches of solid coal, said by miners to be pure carbon. The question now is whether it is a regular coal-measurer or a "pocket."

"Dr. Benson's Celery and Chamomile Pills cured my sick headache." W. W. Hubbard, Manchester, N. H.

Some shelves in a vinery having been coated with bad smelling coal tar the grapes were spoiled, the deleterious gas or odor being absorbed by the aerial organs of the plants. The roots and stems of the vines were outside the house.

The Billious. dyspeptic, or constipated, should address, with two stamps for pamphlet, *World's Dispensary Medicoe Association*, Buffalo, N. Y.

Professor G. M. Humphry, M. D., F. R. S., has accepted the presidency of the Congress of the Sanitary Institute of Great Britain, to be held at Glasgow in September next.

For Cramps, pain in the stomach, Bowel Complaint, or Chills, use Perry Davis' Pain Killer, see adv. in another column.

The *London Gazette* announces that His Royal Highness, the Duke of Connaught has been appointed Colonel of the Scots Guards in succession to the late Sir W. T. Knollys.

The Source of Much Ill-Temper. When your husband comes home in bad humor, jerks off his boots and appears to be generally miserable, do not attribute it to business cares or hard times, but to its real cause—those terrible corns which are constantly annoying him. A word to the wise will be sufficient—buy a bottle of *Putnam's Painless Corn Extractor*. His corns will be quickly and painlessly removed, and his gratitude will be undoubted. Putnam's Painless Corn Extractor sold everywhere. N. C. POLSON & CO., Kingston, Proprietors.

A despatch has been received at the Foreign-office intimating that the Greek Government are willing to grant a piece of ground for the proposed British School at Athens.
