SUBSTITUTES!

FF The public are cautioned against a custom which is growing quite common of late among a certain class of medicine dealers, and which is this; When asked for a bottle of Pain-Killor, they suddenly discover that they are "sold out," "but have another article just as good, if not better," which they will supply at the same price. The object of this deception is transparent. These substitutes are made up to sell on the great reputation of the Pain-Killer; and being compounded of the vibest and cheapest drugs, are bought by the dealer at about half what he rays for the genuine Paln-Killer, which enables him therefore to realize a few cents more prolit per hottle upon the imitation article than be can on the
