

December 2nd, 1931.

Professor J. S. Simpson,
Secretary,
Faculty of Medicine.

Dear Professor Simpson,

Thank you for sending me a copy of the first issue of the "McGill Medical Undergraduate Journal". I like its appearance, and such articles as I have glanced through impress me as being very well put together and of a high literary standard. I congratulate those responsible for the appearance of the magazine, and wish it all possible success.

Ever yours faithfully,

Principal.
