Cotton Markets

Erickson Perkins & Co. (J. G. Beaty), 14 West King-street, reported the following prices on the New York cotton market;

	Prev. Close.	Open.	High.	Low.	Close.
May	14.48	14.52	14.58	14.49	14.57
July	14.31	14.31	14.37	14.30	14.36

Dec.	12.60	12.61	12.63	12.60	12.62

Cotton Gossip.

Erickson Perkins & Co. had the following at the close:

Leading cotton markets showed an advancing tendency to-day, which led to a general covering movement by shorts in anticipation of a broader market. Liverpool has been prominent by its strength during the entire week. New Orleans turned strong, while southern spot markets showed a slightly better tone. Yet business, as far as the local market is concerned, continues dull, with the trade and the speculators looking on, leaving leading interests in control of the near months, with a poor market on which to liquidate. Week-end figures made a better showing than had been anticipated, but, as a market feature, fell flat, which led many to believe that bulls were disposed to take profits, in view of the recent upturn of nearly $2 a bale. New crop options showed little feature, ruling barely steady. As a rule, manipulated advances in a dull market meet with sudden endings. We prefer sales of the distant options on the strong spots.

Liverpool Cotton Exchange.

Cotton—Spot, good business. Prices four points higher. American middling, fair, 7.33d; good middling, 8.01d; middling, 7.83d; low middling, 7.63d; good ordinary, 7.31d; ordinary, 7.12d. The sales of the day were 10,000 bales, of which 1000 were for speculation and export, and included 9400 American. Receipts were 1000 bales, including 400 American. Futures opened steady and closed quiet and steady.

Delay in Widening St. Clair-Avenue.

As a result of delay in settling terms for the widening of St. Clair-avenue building operations on that thorofare are held up and there is dissatisfaction among residents. The question will come up before the court of revision again on April 18, and even if a decision is arrived at it will not reach the council until the first meeting in May.

Personal.

A. T. McNeill, B.A., principal of Woodstock Baptist College, has left for an extended tour of Great Britain.

WALL-STREET TRADING

NEW YORK, April 7.—Serious discussion of the day in the stock market is altogether purposeless. Trading up to noon aggregated about 50,000 shares, with a total outturn of 130,000, thereby establishing a new low record since the middle of 1908. The movement was sluggish thruout; in fact, quite a number of the fairly active issues were not quoted at any time during the session.

News of the day embraced the monthly statement of the copper producers for March, and a cut from six to four per cent. in the common shares of United Cigar Mfrs. Co., a "curb" security. The copper report showed a new high record for production, with an increase in stocks on hand of more than 5,300,000 pounds, compared with the previous month. Both domestic and foreign demand were well ahead of February.

Continued ease of money for all dates is reported, and a gain of cash will probably be shown by the bank statement to-morrow.

The adverse industrial situation was again brought into view by announcement made late in the day that a number of New England cotton mils had decided to order a further policy of retrenchment. Of railway reports, the most noteworthy was that of Chesapeake & Ohio, which showed a decrease in net for February of $120,000.

Again the Weather.

Rough weather on the lake prevented any progress on the work of lifting the broken pipe leading to the intake yesterday. An attempt was made to get the pontoons out to sink them but it had to be abandoned.

Missions in Winnipeg.

Rev. S. P. Rohold, superintendent of Presbyterian missions to the Jews, returned yesterday from Winnipeg, and reports a very successful opening of the new mission in the heart of the Jewish quarter.

THE STANDARD BANK

Wheat Moves Up Over a Point Distant Futures Not So Strong

Rush of Shorts to Cover Contracts Takes Market Out of Rut—Liverpool Cables Higher.

CHICAGO, April 7.—Talk of a possible clash between France and Spain gave pretext for an advance to-day in the pride of wheat. New investment was not of corresponding volume, but the close was strong, with gains all the way from ⅝c to ¼c to 1⅛c. Latest figures on corn showed a rise of ⅞c to ⅞c, and for oats ⅝c to ¾c to ⅞c. The day's trading in hog products a shade to 1½c higher than twenty-four hours previous.

It did not take much to start covering by wheat shorts, who had a profit in sight. As a rule they were satisfied to collect all the cash possible and then await the government crop report, which is due on Monday. Reports of large sales of flour at Minneapolis helped turn feeling to the bull side. Then came disquieting rumors regarding Franco-Spanish relations, and finally there was a report of considerable cash wheat having been bought in this market. As a result closing prices were about the top for the session. May ranged at from 84⅛c to 86c to 87⅛c, with the finish 1½c up, at 87c to 87⅝c.

Forecast of unsettled weather had much to do with making corn take an upward swing. The rally in wheat was also a bullish card. May varied between 47½c and 48⅜c, closing strong, ½c to ⅝c net higher, at 48¼c to 48⅜c. Cash grain was firm.

Oats trailed after the more expensive grains, but did not display much activity. May fluctuated from 30⅜c to 30¾c, and in the end was at 30⅞c to 30¾c, a gain of ⅜c over last night.

In provisions there was a rise, due largely to the advanced lead by wheat. After the pit had been cleared, pork had gained 15c to 17½c; lard a shade to 2½c to 5c, and ribs 7½c.

Receipts at Primary Centres.

Receipts of wheat in car lots at primary points, with comparisons, were as follows:

	To-day.	Week ago.	Year ago.
Chicago	18	26	10
Minneapolis	83	19	162
Winnipeg	201	217	124

Winnipeg Inspection.

Winnipeg receipts of wheat to-day graded as follows: No. 1 northern, 23 cars; No. 2 northern, 47; No. 3 northern, 62; No. 4 northern, 27; No. 5 northern, 9; No. 6 northern, 3; rejected, 23; feed, 3; winter wheat, 4.

European Grain Markets.

The Liverpool market closed to-day ¾d to ⅞d lower on wheat, and ¼d to ⅜d lower on corn, compared with yesterday. Antwerp closed unchanged on wheat; Buda Pest, 1¾c higher, and Berlin, ½c lower.

Argentine Shipments.

Broomhall cables the Argentine shipments as follows:

	This wk.	Last wk.	Last yr.
Wheat, bush ..	3,900,000	4,000,000	2,480,000
Corn, bush	230,000	230,000	81,000

Visible supply in chief ports: Wheat, now 3,900,000 bushels, against 4,000,000 bushels week ago, and 3,480,000 bushels year ago. Corn, 230,000, 230,000...81,000.

Wheat market is easier with slow demand. Arrivals from interior liberal with quality satisfactory. Corn market is easy, arrivals from interior nothing.

Liverpool Wheat Market.

LIVERPOOL, April 7.—The late break in American markets caused realizing here and opening values were ¼d to ⅜d lower. There was further realizing later and prices lost an additional ⅜d to ½d. The general market was weak, as a result of shorts being satisfied and with the heavier shipments from Argentine and Australia and forecast of larger world's shipments. There was a smaller demand from the continent as a result of a large percentage of the shipments being directed there and spots were easy.

World's Estimates.

Broomhall estimates wheat and flour shipments for week, exclusive of North America, 12,000,000 bushels, against 8,456,000 bushels last week. Total shipments last year 10,992,000 bushels. Arrivals of breadstuffs into the United Kingdom will aggregate 4,800,000 bushels. He predicts there will be moderate changes on passage.

Foreign Estimates.

India—Wheat shipments, 968,000 bushels this week, against 536,000 bushels last week, 400,000 bushels last year. Broomhall predicts shipments next week will be 620,000 bushels.

Australia—Wheat shipments 3,600,000 bushels, 1,884,000 bushels last week, and 1,896,000 bushels last year.

Chicago Gossip.

J. P. Bickell & Co. received the following at the close:

Wheat—It was a most active trade in wheat for the session, but the activity and strength seemed to come in spurts and during the morning the swells were followed by quick reactions, which left the trade greatly in doubt as to the merit of the market. Bottom prices for the session were made a few minutes after the opening and top prices were quoted a few minutes before the close. It will be noted that the July price is up but a shade better than ½c for the day and the net advance in September is less than ¼c. Whether true or not, it was freely talked in the open market that some of the leaders who were buying enough May wheat to force the shorts in that month to cover were selling the new crop months thru brokerage concerns.

Corn—The trade showed stubbornness and when prices began to harden because of commission house buying orders there was good covering by shorts. A couple of big cash houses were on the buying side of the market. Cash market ruled ¼c higher.

Oats—The only activity on the buying side was among shorts, who were induced to cover by the strength in wheat and corn.

Montreal Grain Prices.

MONTREAL, April 7.—The foreign demand for Manitoba spring wheat was dull and bids were 3d lower, which figured 2¼c per bushel under cost. A fair trade was done in oats, including a sale of 20,000 bushels of No. 3 Canadian western, at 37c, ex-store. The flour trade was quieter for both local and export account.

Oats—Canadian western, No. 2, 38¼c to 38½c, car lots, ex-store; extra No. 1 feed, 37¾c to 38c; No. 3 C.W., 37¼c to 37½c; No. 2 local white, 36c to 36½c; No. 3 local white, 35c to 35½c; No. 4 local white, 34c to 34½c. Flour—Manitoba spring wheat patents, firsts, $5.00; seconds, $4.50; winter wheat patents, $4.50; strong bakers, $4.90; straight rollers, $4 to $4.25; in bags, $1.75 to $1.85. Rolled oats—Per barrel, $4.75; bag of 90 lbs., $1.85. Corn—American, No. 3 yellow, 58c to 58½c. Millfeed—Bran, Ontario, $22 to $23; Manitoba, $21 to $23; middlings, Ontario, $24 to $25; shorts, Manitoba, $23 to $25; mouillie, $28 to $30.

UNION HORSE EXCHANGE.

Manager J. H. Smith reports a good trade in horses at the Union Horse Exchange at the Union Stock Yards. Nearly 200 horses changed hands this week at fair prices. About 8 car loads were sold and shipped out, of which the bulk went to the northwest, the balance going to local points in Ontario. Mr. Smith stated that he could have sold many more if he had had them on hand. It is expected that liberal receipts will be on hand at the coming week's sales. Prices ranged as follows: Drafters, $175 to $225, with a few of extra quality at $250; general purpose, $160 to $225; express and wagon horses, $150 to $210; drivers, $100 to $140; serviceably sound, $30 to $90 each.

Dismissed Woman's Claim.

His Honor Judge Winchester dismissed the claim of Miss Dot Rowe for $186 against the estate of the late W. S. Freeman, and that of Frank Rowe, for $85. That of Frank Rowe, sen., was allowed. His Honor thought the evidence of Miss Rowe was not corroborated sufficiently to fulfil the requirements of the statute, and he considered the evidence of her brother untruthful.

A Creche for London.

LONDON, Ont., April 7.—A creche for the children of women forced by necessity to earn their own living during the day is a plan the Children's Aid Society has under consideration. At a meeting of the members called for Monday, April 10, the scheme will be worked out.

Doctor Told Her She Did Not Have A Pint Of Good Blood In Her Body.

Mrs. Dosithe P. Cormier, Middle Sackville, N.B., says:

"In the spring of 1897 I was all run down, and the doctor told me I had not a pint of good blood in my body. I took different remedies from doctors, but they did not seem to do me any good. After having taken a lot of different other kinds of medicine, and they did not seem to benefit me, I was almost in despair and did not know what to do until my husband met a lady and told her about my sickness and she told him to try Burdock Blood Bitters as she had received the greatest benefit from using it. My husband went and bought me a bottle, and after having taken it I felt better, so I kept on using one bottle after another until I had taken six in all and then I was strong and well. I am positive that my being alive to-day is due to the use of Burdock Blood Bitters. One spring since then I was not feeling very well and had a lot of work to do. I thought I would procure a bottle of Burdock Blood Bitters and after I had taken two I was able to do a lot of hard work all the summer, and I never felt better in my life. In the winter of 1906 I had Pneumonia, and it left me with a severe pain in the left side. Every morning when I would get out of bed I had to sit down for a while it was so painful. After I had used Burdock Blood Bitters the pain disappeared completely. It has also cured me of bleeding piles. I have received so much benefit from Burdock Blood Bitters that you may publish this as it may help others as it has me."

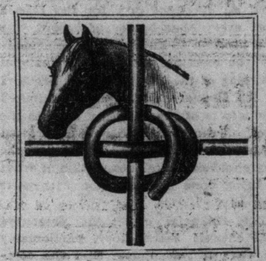
Monarch Stock Fence



There is nothing causes more trouble about a farm than poor fences.

The "Monarch" is not the ONLY good wire fence made, but it is as good as the best, in every particular, and it has a few points in which it is superior to the standard wire fence.

We use nothing but the very best Cleveland Hard Steel Galvanized Wire, made by the United States Steel Company. This is a guarantee to you that you are getting the best that abundance of capital and years of experience in wire making can produce.

Besides this, you have the benefit of our eight years' experience in manufacturing wire fence and gates.

Our fence is kept right up to the highest possible standard in every respect. The quality and size of wire, and the galvanizing are closely watched, also the manufacturing is especially looked after by experienced workmen.

Our machines for making the "Monarch" Fence are of the most modern type, and injury to the wire in manufacturing the fence is reduced to a minimum.

The Lock shown in this ad. is a true cut of the "Monarch" Lock as made by us.

If you do not know who in your locality handles our fence, write us a line requesting his name and our catalogue.
