A striking article in this week's LITERARY DIGEST-January 4th-deals with what is likely to be the most acute and difficult problem that the Peace Conference will have to solve—the clashing claims of the Italians and the Jugo-Slavs to the eastern shores of the Adriatic. By direct translation and illuminating digest, the views of the leading publicists and journals of England, Italy and Austria are given. This very timely article is illustrated by a map of the Adriatic Provinces, showing the territory in dispute between Italy and the Jugo-Slavs.
