RESUME RUNNING **BURLINGTON CARS**

Radial Service is Operating Again at the Same Rates.

"UPON HUMAN FAITH"

Official of Company Says Action Shows Belief in Council.

Hamilton, Feb. 5.-Faced by the fact that its franchise would expire on Tuesday of next week, the Hamilton Electric Radial Company, which discontinued its service on Dec. 13 last because Burlington would not tear up its agreement that called for a maximum return fare of 25 cents, started its cars going this afternoon at the old rates. The company commences business with a bonded in-debtedness of \$160,000 and liabilities to creditors of \$570,300.

A few hours before the first car pulled out of the terminal station the directors issued a statement, which in part read: "That at the sacrifice of their immediate interests the Hamilton Cataract Power, Light and Trac-tion Company, Limited, has determined to advance sufficient money to the Hamilton Radial to permit its reoperation." No mention was made of the increased rates, of any agreement with Mayor Smith in regard to a high-er schedule of fares or to the scheme of insolvency now resting in the exchequer court.

The meaning of it all is that the corporation has got what it went after corporation has got what it went after and Burlington has practically capi-tulated to the demands made upon it for fatter fares. The tide turned just in time to save the corporation from defeat.

For the purpose of determining whether or not the company had commenced its service to the beach because the hearts of the directors had zens of Burlington making their daily pilgrimage to Hamilton in motor trucks, The World interviewed a proent official of the company for one hour and a half this afternoon. Denies Agreement.

While admitting the company would have to increase the fares or elso step again for good, the official positively denied that there was any tively denied that there was any too. Of New York, the general "Y" tively denied that there was any agreement between Mayor Smith and the company that the little town would permit the fares to be raised in excess of that called for by the bylaw. "The action of the directors is simply based upon human faith. We believe that there is now a council installed in Burlington that will be reasonable, and meet us half way. We must have increased rates, but there is no agreement of any kind between the company that the little town would permit the fares to be raised in the eight annual dinner of the national council of the Y.M.C.A. in the Royal Connaught tonight. Other speakers were Major James H. Wallace, duply supervisor of overseas work. G. H. Wood, chairman of the national council, presided. The speaker, who was an associate to the was appointed matron, both to date from April 1.

Home at Newmarket, and Mrs. Mader You appointed matron, both to date from April 1.

The lengthy deliberations of the equalization committee resulted in a bylaw equalizing the assessment of township municipalities was increased from \$49,468,533 to \$49,-100. The speaker were decreased from \$10,731,955 to \$10,340,385, making the total equalized assessment of the county \$60,203,582, an increase over the total amount last year of \$3,524.

either party," he said.

He admitted that the situation was unique in the railway history of the province, inasmuch as the company was starting up service on a line that had believed in the province of the was starting up service on a line that went to bed at night were never sure will AMALGAMATE of fares that would eventually force that they would see the next day. it to discontinue service again.

plumbing service means.

Equalization Committee Plan Bylaw for Assessment of Municipalities.

York County Council met again yester-day morning in the county chambers at 10 a.m. The report of the audit committee a.m. The report of the audit committee showed that grants to the York Patriotic Fund amounted to \$300,000, and grants to soldiers' dependents to \$403,000. The total levy for county purposes during 1918 was given at \$477,909.57, exclusive of provincial war tax. At the end of the year Mimico owed \$7000 and Leaside \$18,402.60; both amounts are included in the total given above. Leaside owes a balance of \$3,362.56 for 1916 and \$28,878.60 for 1917, together with its highway and interest accounts, amounting to \$1791.80. The report also showed a bank balance at Jan. 1 of \$176,194.64 and a sinking fund of war bonds.

A deputation of county constables waited on the council to ask for an increase in salary. It seems that at present the expense of bringing prisoners to the city is borne by the constable unfortunate enough to make the arrest, and that the money spent in this way is not refunded. The matter was referred to that the money spent in this way is not refunded. The matter was referred to

the finance committee.

Splendid Record.

Sir Wiliam Mulock waited on the council during the afternoon session regarding the question of filling vacancies in the county with returned soldiers. He did not quite know what steps the council intended to take in the matter, but thought that a county which had given so liberally in men and money would be prepared to stand behind the returned men.

The provincial and municipal institutions were following the lead of the Do-

DENIES THAT RUSSIA

BETRAYED THE ALLES

North provincial and municipal institutions were following the lead of the Dominion. Other counties look to York to lead. It is not a question of appointing A or B to any position, but rather whether the county is going to turn the maimed hero on the road as one would an old wornout horse. He felt that the council would not unwittingly smirch the splendid record of, the last four years.

The land titles question next occupied the attention of the council. The government have withheld registration fees the attention of the county and the city regarding an arrangement yet to be made between the county and the city regarding an arrangement yet to be made between the county and the city regarding an arrangement yet to be made between the county and the city regarding a deficit in the new land titles of line a deficit in the new land titles of line a deficit in the new land titles of line a deficit in the new land titles of line a deficit in the new land titles of line a deficit in the new land titles of line a deficit in the new land titles of line a deficit in the new land titles of line a deficit in the new land titles of line and line are lined to the often repeated state-ment that Russia, by signing peace terms with the Germans had betrayed that the matter was now being taken up.

Candya Splendid Food

One of the most attractive forms in which food can be eaten—is candy.

Candy is composed principally of sugar, nuts, fruits, some fat's such as butter, and chocolate.

All these ingredients are recognized by eminent medical authorities as food products, which the system craves and demands.

Let us examine their food values separately.

We all know that sugar is a body-building essential; about one-quarter pound of sugar being required by an adult every twenty-four hours.

Nuts and fruits yield a high percentage of nutritious materials.

Fats supply the bodily fuel and should be used in every dietary.

Chocolate is a delightful stimulant, especially valuable in restoring energy.

Combine these ingredients and are they not still food?—satisfying, nutritious, essential and in a most delightful and properly balanced form.

Eat more candy. Candy is beneficial to all and harmful to none.

Serve Candy as a Dessert. It Is a Splendid Food. CONFECTIONERY AND CHOCOLATE INDUSTRIES OF CANADA

labor men, and there is no further need of this measur eof restriction, if ever such need existed.

Another important point raised was question of future immigration. The last action of the British Government
