W. A. Amos, Palmerston, roused the convention with an address on the aims and objects of the U. F. O. He traced its organization and referred to the cold indifference with which it was at first received. From entrenched capital it had heard the cries, "Don't rock the boat," "No truck nor trade with the Yankees," and even to shout of Bolshevism. It was because agitation had failed the farmers had recourse to political action. Par-hament had become autocratic and legislation catered solely to the interests. past, as well as the U.F.O. Canada imported the "Grange" movement from the United States in 1874, and in 1890, after having obtained very large proportions, it began to decline. Its decadence was traceable to its unhealthy rapidity of growth and the failure of its commercial enterprises. The Patrons of Industry followed, and soon met with complete extinction. The Farmers' Association came next, and, amalgamating with the Canadian Grange, formed the Dominion Grange. In 1909 the western farmers' organizations provided a pattern for the U.F.O., and both found their inspiration in the Grange. The Grange disclaimed any intention to go into politics. So did the U.F.O.
