

Fancy Suits For Children

What's correct for the wee men? is the puzzling question with mothers these days, and the answer is not easy if you're to judge by the impossible styles that seme houses are showing. It's not an easy matter to please every taste in Fancy Suits, but we flatter ourselves that we have struck the happy medium or combination of styles in Children's Fancy Suits, Buster Browns, Sailors, etc., that are sure to please, and with a moderate price range for such handsome goods.

According to some newspapers, advertising is the panacea of all business ills. It can even resurrect the dying business of the custom tailor, according to an article recently republished in The Montreal Gazette. This article was taken from a tailor's trade paper, and was one of a series following up an attempt to kill Semifollowing up an attempt to kill Semi-ready tailoring by "Confidential Circular, No. 1."

HAMILTON HAPPENINGS

Lest Cataract Co. Should Begin Cut Throat Competition-Hospital Governors Meet.

HAMILTON, April 16.-(Special.)-

The special power and lighting committee of the board of works this evening decided to recommend the commission for 3000 horse power, so that the application may reach the commission in time to be dealt with next Tuesday. The commission will also be asked for an estimate of the cost of installing a municipal lighting plant. E. Richards, one of the engineers of the commission, was pres-He thought the cost of a plant would be about \$70,000. The aldermen figured that they could pay for their plant in five years, and that their street lighting would not cost more than \$50 a year per lamp, as compared to \$85 a lamp now paid to the Cataract Company. It is estimated that the city will need 1500 horse power for street lighting and for power for other civic plants, and it was agreed to make application for another 1500 horse pow-er for private users. The Cataract and other companies will also be asked to tender for the street lighting contract. The aldermen were afraid to apply for a greater amount than 3000 horse pow-er, as they think the Cataract Company will cut prices to put the city out of the power business.

Hospital Governors. The hospital governors this after-noon voted George Stevenson \$350 for his work in inspecting the plumbing at the city hospital. The governors did not look with very great favor on the request of the board of education that a dentist should be added to the that a dentist should be added to the staff of the hospital to look after school children's teeth. Their idea was if such a thing were done that the board of education should pay for the equipment, but they thought a more central location would be better. No action was taken with reference to the location of the hospital for consumptives.

The old folks' at home concert given by the Conservative Club last January was repeated in the club rooms this evening. Ald. Baird presided.

Pleaded Guilty.

The meeting of the Municipal Club held in the Temple Building last night was addressed by J. P. Hynes, the architect, on "Civic Improvement." The lecture was lucid and interesting, well illustrated with lantern views.

The adaptation of the ideas of improvement to Toronto included: (1) The relief of congested traffic by opening a wide thorofare between Yongestreet and avenue, extending it north to St. Clair-avenue; (2) the develoption of the deve

taking Queen's Park as a centre; (3) the building of park drives thru and around the city, north, central and country.

BREAD The three cotton mills have decided Mr. Hynes' remarks were enthusiastically received and it was proposed to take steps to give the ideas presented a greater publicity.

The three cotton mills have decided to reduce the number of working hours to 57 a week. Two of them have been operating for 60 hours a week, and the Imperial for 58 hours. There is a proposal on foot to have a surpliced choir at St. Paul's Presby-

terian Church. The choir and session have approved of the proposal, and the approval of the congregation will sought.
