BRITISH COLUMBIA NEEDS ASSISTANCE OF ASIATICS

Rev. G. S. Eby Says Exclusion May Start Struggle That Will Make Whites Subject.

"British Columbia is a big land that has always been occupied by little men. They were at one time as bitter against Canada and Canadian immigration as they now are against Japan, the Japanese and Japanese immigration.
"The belief that Orientals are coming here to overrun the land is a mere

nightmare.

"The trouble is that we assume that Orientals have no higher morality than ourselves. We exterminated the Indians, and now we fear retribution.

"The action of the British government in forcing the opium habit upon the Chinese is the greatest crime that was ever committed against civilization."

"In message of Mr. Purvis to Dr. Noble in connection with the appointment of the commission was a most improper message.

"I understand from William Purvis become that the is to resign at an early date administration."

Nothing So Barefaced and Infamous in Canadian History-All Other Political Corruption Turns Pale In Comparison.

SAULT STE. MARIE, Oct. 10.-(Spe-Dartmouth is a suburb of Halifax, across the harbor. It has a population rial.)—It is reported from Blind River of about five thousand, and one weekly paper, called The Patriot, issued on that six arrests have been made in During the past two months ten fires have occurred, all supposed to be of incendiary origin.

The matter had assumed such serious nature that the insurance companies commenced to cancel insurance on property in the town. Altho efforts had been made to connect the guilty parties with fires, they have been unavailing, and it was only two days also that the police secured clues that led up to the arrest of six men. It is said that two of the men have since been released, but a number of other arrests are likely to follow.

On Tuesday night there fires occurred in Blind River, destroying reftaurants caned by Mrs. King and Mrs. Menars, and the gent's furnishing store of Themas Assuant. Watchmen were that do n. a. number of valuable properties in town, and during the following night a couple of flour barrels filled with shavings, and apparently mady to light, were then on the premises of the Dominion Lumber Co. An alarm was given and the incendiaries did not return to conspete their work. It is said that the case against the accused men, whose names cannot be ascertained to-day, is strong. against Hon. Mr. Fielding in Queen's and Shelburne. The Patriot is trying to his innings at least once a week. tell the fullest and most detailed version of the Blair-Russell-La Presse deal of the election of 1904 yet given, and if it is anything like what it is here published, and it is certainly like what The World has heard at times in fragments, it is the most surprising thing ever connected with Canadian politics.

This story must be cleared up. Conservatives, Liberals, Canadians, must insist on such a clearance.—Ed. World.1

Here is the editorial comment of The Patriot on the story: On another page the famous Blair-Russell story is told in current form. The Patriot is not in a position to vouch for the absolute truthfulness of the plots and counter plots which the story involves. It is Just the story as it is told by those who assume to know the facts. As to the horrible nature of the scheme as outlined there can be no question. If true it is the most atroclous attempt to interfere with the will of the people as expressed at the polls ever known in Canadlan history. It is too appalling to be credited if it were not that there are accompanying circumstances which give force and weight to the tale. If there is no truth in it, then it is time the people knew; if there is truth in it then there are a lot of people loose in the country who should be wearing stripes. This is the story supposed to be re-ferred to by The Toronto World, which has produced a libel suit on the part of Dr. Pugsley. It is time for the public to know on what all these recriminations are based and The Patriot has decided to give the whole story for what it is worth. It is no wonder that politicians fight shy of such an infamous and devilish plot as this seems to have been. If a libel suit will bring out the facts, then it is time

Aylesworth and Dr. Pugsley, who have retaliated in kind. In fact, they carry the war into Africa by making various strong statements. They both refer to the formation of a huge campaign fund on the part of the Conservatives and undertake to connect R. L. Borden therewith. They infer the wholesale use of money. Later on he uttered strictures on Hon. W. S. L. Borden refused in the most positive manner to have any part whatever in the proposals. As soon as they saw Mr. Borden could not be handled they decided to go on without him. If the plan succeeded he was to be informed that he could hold his place as premier if he would be good and approve of certain things to be done. If he agreed all well and good. If he refused out he was to go, and Mr. Blair was to take his place.
