Works Committee of Toronto Junction Council Met Last Night to Discuss Overhead Bridge.

CANADA FOUNDRY CO. WAS NOT THERE

Four Sidewalk Bicyclists Fined One Dollar and Costs—Public School Tenders.

Toronto Junction, May 10.—The Works Committee of the Toronto Junction Council met last night to discuss the proposed overhead bridge from McCowen-avenue to Argyle-road, and instructed Chairman Hynd to procure estimates for construction. Representatives from the Canada Foundry Co. were to be present to make arrangements for the purchase of water from the town; but as they were not present, the committee were of opinion that the city had decided to look after its own factories and would supply them with the requisite water.

At the Police Court this morning Messrs. Fry, Miller, Smith and Leadwater were fined \$1 and costs for riding their bicycles on the sidewalk. The practice has become so common some individuals with a good deal of presumption, or perhaps, shortsightedness, have ridden up behind the police and whistled for them to move to one side.

The Public School Board opened tenders for the new Western-avenue school to-night, and of the 28 opened, the lowest was over \$7500, or about \$100 more than the board had estimated. When the board found the cost would exceed their estimate, the members of Council were called in from an adjoining room, and a conference held. The conclusion that the Council came to was that it would be economy to complete four rooms, at a cost of about \$8000, of which \$1000 will be raised on this year's taxes.

A special meeting of the School Board was held last night, owing to the overcrowding of the lower room at the Davisville school. The board thought that the employment of an assistant teacher till the midsummer holiday would meet the difficulty, and Miss O'Brien will be engaged for that purpose. Mr. W. A. Hopkins, principal of the Eglinton school, tendered his resignation, owing to the lapse of his certificate to teach, until he had procured a higher professional one. It is Not a Stimulant But a Tonic You Need

Hosts of people do themselves irreparable harm and shorten their lives by many years by the use of stimulating drugs to whip up the exhausted nervous system and keep the machinery of the body working. Others get temporary relief from nervous headaches and body pains by the use of deadening and nerve-destroying narcotics. Both of these treatments mean death to the nervous system and hasten the approach of paralysis and insanity.

Dr. Chase's Nerve Food is a protest against these old-fashioned and villainous methods of treatment. Unlike any other medicine you ever used, Dr. Chase's Nerve Food forms new red corpuscles in the blood and creates new nerve tissue to replace that destroyed by overwork and disease. It is impossible to obtain a more effective treatment for nervous disorders than Dr. Chase's Nerve Food, because it gradually and naturally restores the wasted nerve cells and rebuilds the system. It is the up-to-date remedy for weakness and disease resulting from exhausted nerves.

DR. CHASE'S NERVE FOOD.
