### A HORRIBLE CRIME.

The Toronto World.

In England, Lord Rosebery considered it an honor to be the first chairman or president of the London County Council. Joseph Chamberlain is thus described in Who's Who: "On the death of his father, he retired from the firm, in order to devote all his energies to public life. To him was due the transfer of the gas and waterworks to the borough authorities, and he was the author of the improvement scheme, which has entirely transformed the face of central Birmingham. He was re-elected mayor in 1874 and again in 1875." Hinted-at Withdrawal and Coming of a Dark Horse Do Not Materialize-Mr. Maclean

The public men of England, lords and commoners, of the greatest reputation, have often taken the occasion to test public opinion on great issues by presenting the new control of an office such as mayor of a town, as rector of a university, even as a poor law guardian. And especially do the more eminent of the public men of England and the ambitious younger members take advantage of this means of testing public opinion, if their party happens to be out of office. They are then absolutely untrammelled, they give their wings a free flight, and the public are, after the essay, in a position to read the signs of the times. All the politicians of England, the press of England, the great weekly journals, watch these events with the closest scrutiny and interest.

"A poll will be taken on Monday next, and until then this meeting stands adjourned," said the City Clerk. "Heir distribution to the greatest possible number."

"What is that?" asked Mr. Maclean "I will have none of it. I want to speak to my fellow-citizens to-day, and I want forty or fifty minutes for it. I have some thing to say, and you want to hear it." Before this, the Mayor had said that he with trying "to let a Grit" into the mayor's chair. He has been charged with is a walkover for Fred Cook, the well-"knifing Mr. Howland" and with "knifing" others, to use their own term. And known newspaper correspondent. An effort has also been made to try and induce some Conservatives to punish Mr. Maclean in some horrible way for this temerity of his in dis-cussing great issues in connection with a municipal office.
