# Unclean! Unclean! FOR BIGGER MONEY

ELEVEN years ago lepers in Java were in a deplorable condition. The Government could not do much for them because ministrations to lepers cannot be made compulsory.

BUT the opportunity for Christian and humanitarian service was sought by one organization. The result is a marvelous improvement in the social and spiritual conditions of the lepers.

THE governor-general has expressed strong hopes that this Christ-like work of the Salvation Army will be extended. It will. Its influence for good is incaiculable.

# LADY ASTOR MAKES APPEAL FOR LIQUOR

Sir John Rees, Unionist for East Nottingham, in a brilliant and witty speech, urged the removal of the existing war restrictions on the liquor trade.

"I know that strong forces are grayed against me," he said, "and that there is a rod in pickle for me. But I shall be prepared to kiss the rod."

Lady Astor followed Sir John, and, although at first she showed nervousness, she was soon speaking with confidence and in clear voice, which rang through the House to the large and friendly audience.

liquor traffic, for which she pleaded strongly in the interests of the children. "I am aware," she said, "that this country does not desire prohibition, and I am not working for that. I am certain that the country is ripe for drastic drink reforms, and I want to see that the drink submarine does not torpedo the prime minister, and that he is master in his own house."

Cheers and laughter greeted this sally.

ministry, for her courageous and brilliant speech.

Mr. Flaner, in behalf of the Government, explained the impossibility of returning to conditions before the war, and said that the only alternative was a new bill, which must be carefully considered by the House.
