

OF INTEREST TO WOMEN

A Rap at the Yankee Heiress.

ROME, Nov. 18.—The Italian press is daily growing more resentful against the newspapers of the United States for their comment on the affairs of the Duke of Abruzzi and Miss Katherine Elkins daughter of Senator Elkins of West Virginia. The latest Italian criticism appears in Italy Abroad, a review edited by Signor Pellegrini, who was secretary to former Premier Zanardelli. It is written by Signor Manegazza, a staunch monarchist, who is supposed to be the mouthpiece of the duke and says in part: "The Duke of Abruzzi already would have married Miss Elkins without giving her the rank of royal highness if we had been satisfied simply to become his wife. This, however, she refused, not understanding that a girl in her position in Europe would not be objected. Americans are convinced that their dollars can buy even relationship with one of the oldest reigning houses of Europe."

HON. W. J. HANNA TALKS STRAIGHT TO DEPUTATION

Steps Taken by Ontario Government to Prevent Tuberculosis—New School Book.

Hon. W. J. Hanna, with characteristic originality, pointed the way for a large deputation which asked the government yesterday "to build, equip and maintain one or more institutions for indigent and other consumptives." His advice was for them to have their request endorsed by resolutions of the county councils, with the pledge that the counties would pay for the maintenance of the buildings from their respective municipalities.

The deputation included about fifty of those who attended a conference on the cure of consumption at the Rosin House last March. Dr. Lockhart, Hespeler, warden of Waterloo County, chairman of the conference, introduced the deputation, which was heard in the reception room by Hon. W. J. Hanna and Hon. J. J. Roy.

Judge Pearson said that the government was asked to establish one or more institutions for the care of indigent and other consumptives, because the municipalities were unable to do so to the limit. An expenditure of \$100,000 a year for maintenance would be an act of thrift in the good it would do in relieving and reducing the ravages of consumption in the province.

Mayor Bowley of Brantford said that there is an urgent need of the institution asked for. Judge Barron of Stratford said he wished that Earl-Grey could be present to make the same kind of a vigorous speech as he made at the Dominion conference, when the governor-general advocated the preaching of special sermons and the taking up of collections throughout the Dominion on one Sunday every year for the cause of those afflicted by consumption. The government would be supported by the people in any reasonable action they took in fighting the white plague.

R. T. Kemp, Halton County, said there was now no proper place for indigent consumptives to be sent to. Act Consumptives. Dr. Roberts, medical health officer, Hamilton, said the present Public Health Act was cumbersome and useless. It should be revised and township boards be replaced by county boards of health.

Dr. Niven of London thought that acute cases could be properly looked after in their localities. Hon. W. J. Hanna said that's the opinion of the government. J. P. Jaffray of Galt said that the municipalities are loaded up with expenses, while the provincial government is rich. "It is up to the government," he said, "to do what we ask."

Miss MacMurphy said there were three lines of work—sanitation, inspection and prevention. According to reports, 4 per cent of the cattle killed at the abattoirs in five others, had tuberculosis. The department of agriculture might do something by more

Favored Newspapers.

OTTAWA, Nov. 18.—(Special).—It is stated that when all the departments of the government are thrown open to a royal commission of enquiry the newspaper patronage list will also be brought into the line. This patronage is carried to such an absurd extreme that not only advertisements but news items affecting the country are retained for Liberal newspapers only.

then, can you say it's up to the government. Get County Council. As Mr. Jaffray and Mr. Hacking again urged that the time was already ripe for the provincial building, Mr. Hanna advised the deputation to secure the endorsement of the county councils.

JAIL OFFICIALS CLASH OVER OUTLAY OF MONEY

Governor Chambers Wants New Sidewalk, But Steward McMillan Wins Out on Issue.

Governor Chambers and Steward John McMillan of Toronto Jail do not see eye to eye on the question of a new approach from Gerrard-street, inwardly this year and extended that, under the circumstances further expenditure would be unjustifiable. Property Commissioner Harris sided with Mr. McMillan. He thought that as extensive plans for improving the jail were under way, the whole character of the approach might be altered, and the money might be wasted on the sidewalk.

The 1909 committee will deal with the matter of a new site for the registry office. Portraits of former mayors Urquhart and Coatsworth will be purchased, thus completing the collection up to date. The board of control is not disposed to grant permission, altho the object might perhaps appeal more strongly to many citizens than the one for which support was asked last Saturday.

There will be no "Tag Day" to raise funds for the relief of the needy in Toronto during the coming winter, at least if the board of control is not disposed to grant permission, altho the object might perhaps appeal more strongly to many citizens than the one for which support was asked last Saturday.

A deputation from the Unemployed Benefit Society, made up of J. H. Heathwaite, W. J. Bell, R. C. McNichol and R. J. Wiggins, asked the controllers yesterday for permission to go ahead, but the board was not enthusiastic. Controller Ward said the idea was a good one, but that there was no telling where such movements would end. The mayor declared that "this tag-day business is a thing of the past, and that the city would not authorize it."

The promoters of the undertaking are not altogether discouraged, especially as they say they understand that the proper body to give permission is the police commission. They will probably go to the commissioners, the date they have in view is Saturday, Dec. 19.

Dr. Bruce Smith, provincial inspector of prisons, has notified the city that an order in council has amended the jail regulations to enable the city to place electric lights in the cells and corridors, so that prisoners can read until a plan reduction for wards five and six has endorsed Ald. The widow said her husband had transferred the policy to her before their marriage and that they had gone to an insurance company's office together to have the transfer made. Justice Clute held that the contract was made during the marriage, and accordingly gave judgment to the widow for the whole amount.
