Provide for Extension. Providing for an extension of time for the completion of the Davenport road line from the end of the present year until July 1st, 1917, in order to leave time to make arrangements for a deviation of the route along Bridgeman street, a draft agreement between the city and the Toronto Suburban

quested double that amount for alion expenses. The board decided that a full statement of the financial condition of the units was necessary before the matter could be taken up.
Stating that the old Y. M. C. A. building on Yonge street is to be used for a khaki club, a number of women appeared before the board asking for an exemption of taxes. Mayor Church premises were not available for such club, but this was denied by Miss

Claire McColl. The pro's and con's of the matter were then heartily discussed and finally the mayor ended the matter by stating that if the military authorities acknowledged it as suitable for military purposes it would automatically become exempt.

man street, a draft agreement between the city and the Toronto Suburban Railway Company, was submitted for consideration. The agreement protects the right of both parties. On the ground that the city might be liable to forfeit certain rights conceded them by the railway board, Works Commissioner Harris opposed the agreement, and he was supported by Controller Thompson and Controller Cameron.

"It is only to give the city time to name another street for the new route, but it does not mean that we waive the franchise." said the mayor.

Considerable discussion followed during which Alderman McBride appealed on behalf of the property owners in the locality, claiming that when they purchased their property they were not aware that a franchise existed.

Controller O'Neill was not present and as the board divided equally on the question the matter was adjourned until today.

Board Wants Statement.

WINNIPEG GRAIN MARKET.

Winnipeg, Nov. 2.—Wheat closed 4%c up for November, 3%c up for December, and 3%c better for May. Oats gained %c in December and %c in May. Barley was %c better. Flax dropped 2c in November, 1%c in December and May.

The market was very active today and had an exceptionally wide range. The volume of trade was bigger than usual, tho the market was light. On the early break, a lot of wheat was bought in by government agents, and when the crowe began to cover they found this wheat off the market and buying orders hard to fill.

Cash demand was good for the higher grades. Lower grades are widening out. Oats in good demand. Flax was easier.
