Whether you are a scholar or a worker, the most important thing in the world for you is your eyesight. Both your learning power and your earning power depend upon your eyes. Have your eyes examined regularly. It will save you both suffering and money in the future.

EVERY TWO YEARS

At least every two years a person's eyes should be examined. If the Glasses you now wear do not give complete comfort, you need new glasses. The longer you let it go the more trouble you will have.

It costs very little money to keep the vision in perfect order, whereas if neglected it may be a very hard matter and cost a great deal of money.

THIS IS YOUR OPPORTUNITY

One of our graduate optometrists will examine your eyes and determine the prescription required. Our skilled mechanics will grind the lenses. Our optometrists will fit and adjust glasses to suit your individual need. All lenses are ground on the premises, where you can see it done.
