The returns of the Methodist E. Church, U. S., for the last year, exhibit numbers as follows.—
Travelling Preachers 4,129, Local Preachers 5,420, Members 689,682; showing an increase for the year of 148 travelling preachers, 266 local preachers, and 27,367 members. The numbers in the M. E. Soulli, and other off-shoots from the Parent Body, are not here included.

Fish in California.—The deep, cool waters of the Sacramento River, contain several varieties of this of the first quality. The salmon taken from this stream are large, fine flavoured, and as wholesome specimens of the finny tribe as can be produced in any other waters. The river is constantly fed by the snow from the mountains, and so rapid is its current, that the water retains an unusual coolness till they are lost in the Bay. In our warnest days, says the Sacramento Transcript, the river water is so cool as not to be unpleasant to drink, and hence we do not feel the want of ice so seriously as the people in the States who are compelled to drink water from the Mississippi.

The California Preayune was burnt out, office

The California Pecagune was burnt out, office and all, at the late fire in San Francisco, but in thirty-six hours another office was started and the piper issued again. Messrs. Gibson & Co. are the energetic proprietors.

Texas.—The Galveston Civilian of the 22d ult. Jsays:—The iron ship John Garrow, Capt. Hamilton, arrived on Friday with 110 English emigrants, belonging to the British company, who have purchased a large tract of land in Milan County, with the view of colonizing some hundreds of families. Captain Sir Edward Belcher, of the Royal Navy, came out by the Garrow, and immediately proceeded to the interior for the purpose of providing for the wants of the settlers. They are represented as a good class of people, and we bid them we come and prosperity to their new homes.
