

Miss Hazel McCready Named Physical Instructress By Y.W.C.A. Directors' Meeting

MISS HAZEL MCCREADY, of Saint John, has been appointed physical instructress for the Y. W. C. A. here and will enter upon her duties next September or October. Miss McCready is a graduate of the McGill physical training school, and during the last year has been gymnasium teacher at Rupert's Land Ladies' College in Winnipeg.

She is expected to arrive in Saint John next month and her acceptance of the position, made vacant by the resignation of Miss Dorothy McArthur, the present instructress, is very gratifying to the members of the directorate of the Y. W. C. A.

The directors met yesterday afternoon with Mrs. L. de V. Chipman, vice-president presiding in the absence of Mrs. E. C. Weyman.

SUMMER PLANS DISCUSSED.

Summer plans were discussed at the meeting, supervision and entertainment for the maritime girls' track meet being held this week under the auspices of the Y. W. C. A., outings for the girls' clubs, and preparations for the grand bazaar in the early fall, as well as the

to Duck Cove, which is planned for the Overseas Girls next week.

Committees for taking charge of all details in connection with this big united effort of all the "Y" departments were dealt with.

Miss L. Parks gave the report of the residence, which was most satisfactory. Several girls in the city had enjoyed visits to the residence when they shared in its home comforts.

A progress report was given with reference to new quarters for the Travelers' Aid hostel, and it was said that a suitable location was in view.

TRAVELERS' AID.

The report of the Travelers' Aid for the month was given by Mrs. Chipman and showed that the workers had been kept very busy. They had cared for 94 major cases and 116 minor cases, assisted 208 persons, met 229 trains and 25 boats, cared for four children, traveling alone, and two foreigners, and had taken 97 persons to the transient home. Among the cases, cared for were two that required hospital treatment. Among the numerous immigration cases given assistance was one in which it had been necessary to cable to the Old Country to obtain official record of birth.

Blue-jay

THE SAFE AND GENTLE WAY TO END A CORN

FAMOUS FEET
...how they're kept free from corns..

MATT MCGRATH'S Tinsler Feet

"You don't win any medals, in athletic meets or walking a beat, when a toe is torturing you," writes Matthew J. McGrath, Olympic weight and hammer thrower and New York police lieutenant.

"So athletes and policemen who are wise never tolerate corns. They get rid of them."

There is no substitute for good old Blue-jay. For more than 30 years it has been vanquishing corns to the count of millions yearly. For Blue-jay first of all relieves the cause of corns. Its cool, cushiony pad ends the pressure and pain at once. Then the medication loosens and ends the corn. Usually one plaster is sufficient. But even an "old offender" will seldom withstand a second Blue-jay plaster.

At all drug stores.
