MORNING NEWS OVER THE WIRES

A new Catholic church of St. Vincent de Paul at Oromocto was dedicated Monday. The ceremony was performed by His Lordship Bishop LeBlanc, and a sermon for the occasion was preached by Rev. Father McDermott of Sussex. Rev. Father Hannigan is in charge of the new edifice.

A bomb exploded yesterday in the house of Myra T. Herrick, United States ambassador, in Paris, seriously injuring the valet who opened the package. Mr. Herrick arrived home two minutes after the explosion. The room in which the explosion occurred was wrecked.

Dr. and Madame Pinaut left yesterday for Montreal en route to Europe, where the doctor will attend some of the large clinics and hospitals.

Richard Britton was found guilty of doing previous bodily harm to G. Wendell Slipp at the conclusion of three performances today. The court adjourned until today when the case against Oliver Davenport, on the same charge, will be commenced. Mr. Justice Chandler is presiding.

The Baptist church cannot enter into church union with other churches and that might as well be made plain now as later," was the statement made by Rev. W. T. Graham of Toronto in the convention at St. Thomas yesterday. They cannot unite with those who baptize in immersion, as Baptists believe solely in faith by water. Dr. Graham also said that the Baptist church would oppose any movement to give religious education in the schools. He appealed to his audience to be united and true when they meet to decide those questions. His hearers seemed to be in perfect accord and interrupted him constantly with cheers.

An inquest into the death of a man who was found in a car at Moncton yesterday was held last night and adjourned until Friday. The body is supposed to be Alexander Kocokor, a bank book on the body bore the number K 18 and on inquiry 41 Imperial, where the account was kept, it was found to belong to Kocokor. C. D. Shoes are Unnatural

NATURE never intended us to wear shoes—she intended us to go barefoot. But because it is necessary to disregard nature in this respect, it is not necessary to cripple ourselves.

From early childhood some feet are deformed—bent out of shape, by narrow shoes—crippled. Why let your child's feet be like this?

HURLBUT cushion sole SHOES allow the foot to grow as nature intended. The broad toe gives room to grow for every toe—the cushion sole gives a springy natural tread. The shoes are welted and insure the lowest cost per day of wear.

Write for booklet about Hurlbut "Re-build Service" and we will tell you the name of the Hurlbut dealer nearest to you.

TO PROBE MYSTERY OF DISAPPEARANCE

Man Travels From Pacific Coast to Trace Missing Sister-in-law.

Detroit, Oct. 20.—Determined that the mystery surrounding the disappearance of his sister-in-law, Miss Phyllis Eillian Hodson of Leamington, Ont., twenty-two years old, on September 24, shall be solved, Charles F. Hutchinson has arrived in Detroit from the Pacific Coast to take charge of the search.

Miss Hodson, secretary for a number of Highland Park society people, disappeared after announcing that she was going to a hospital for an operation for appendicitis on September 18.

She sent to Mr. Hutchinson for money to pay the bill, and he forwarded funds. She suffered an attack of brain fever after the operation, it is said.

Manning Doherty's Sister Honored

American friendliness for Canada was strikingly exemplified recently when a Toronto lady was the central figure in a delightful international episode. Mrs. Edmund Kelly of this city was attending the annual meeting of Governors and Executive of the International Federation of College Alumnae in Indianapolis last week, and as Governor for Ontario, she read a report of the progress made in this Province.

As Canada was the only foreign country represented, Mrs. Kelly was asked to preface her report with a talk on the Dominion. The Mayor introduced the speaker, and as she ascended the platform a group of Canadian flags were noisily unfurled at the back of the stage and the band struck up "The Maple Leaf Forever." Mrs. Kelly was taken by surprise, and for several minutes was unable to speak owing to the cordiality of her welcome. Later, however, she did herself, the subject and her country full justice.

Before her marriage Mrs. Kelly was Miss Josephine Doherty, sister of Hon. Manning Doherty, and a talented elocutionist. She is now considered one of the best local woman speakers. Mrs. Kelly is Past President of Loretto Alumnae and a prominent member of the I. O. E.

ABNORMAL CHILDREN IN CHICAGO SCHOOL TO BE FED ON SHEEP GLANDS

Chicago, Oct. 20.—Pupils in sub-normal classes at Chicago schools will be fed on a sheep gland diet as soon as arrangements can be completed, it was announced by Dr. Frank G. Bruner, director of the special Schools Department of the Board of Education.

The gland diet is the idea of Health Department physicians and several thousand children will partake of the sheep glands, prepared in the school kitchens. Special report blanks are being prepared to record results.

Much has been done with the transplantation of animal glands for relieving physical functions," said Dr. Bruner, "and we expect to meet with success in putting new brains into the heads of sub-normal children through the exclusive use of a sheep gland diet."

THE RAILROAD STRIKE ORDER IN UNITED STATES

(Montreal Gazette.)

The railway strike order in the United States is the logical outcome of a situation which has been developing for some months. Organized labor in the United States, as in this country and in Great Britain, has made no secret of its attitude toward the post-war readjustment of values. It has taken the position, and insisted that it should be maintained, that what it had secured under the stress of war conditions, it would retain after the war. The government of the United States and Canada have either refused to accept the twelve per cent wage reduction effective since July 1. The railway companies, on the other hand, are faced with the necessity of still further reducing the cost of operation as represented in their wage bills. The public are demanding cheaper transportation, and the railway cannot give it unless and until the wage bills are made to more nearly approximate the actual value of the labor given. The leaders of railway labor know what the conditions are, but have taken an arbitrary and uncompromising stand, with their unions behind them. They have determined to obtain by force what they cannot justify by statistics or argument, and they propose to back their determination by paralyzing the commerce of the United States and putting the public in a state of economic loss and inconvenience. A strike on so large a scale as that planned for October 30 will be a disaster to the business of the country, but it will be no less a disaster to the labor organizations concerned and will react upon organized labor generally. So great an outbreak upon the public, committed at the order of a small group of labor leaders, will define the issue too clearly for anybody to mistake its nature. The public will insist that their interests be protected, and their hostility will inevitably break the strike. It is evident that the leaders of railway labor have counted only the cost to the public, and have not taken into consideration the far-reaching effect which the strike will have upon the labor movement.

Y. W. C. A. SUFFERS BEREAVEMENT

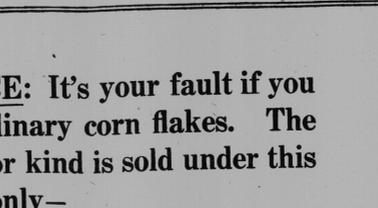

News of the death of Miss Grace Coppock, National General Secretary of the Young Women's Christian Association in China, was contained in a cablegram received Saturday by Miss Margaret Ford, Secretary of the Dominion Council and will be heard with grief by a large number of friends in the city, where Miss Coppock was well-known as she was the continent over having become an international figure in the work to which she has devoted herself since 1903. The cablegram told only the bare news of her death.

Miss Nellie Elliot, General Secretary for Hong Kong, who is in Toronto on furlough, stated to The Globe last night that she had seen Miss Coppock in China last July. Her death was a distinct shock as at that time she had been in perfect health.

Miss Coppock was in Toronto less than 16 months ago, when she gave many addresses on work in China.
