Defiance of The Allied Powers

Hungarian Soviet Government Expresses it in Proclamation to Red Army

Copenhagen, July 2.—Defiance to the Entente Powers is expressed in a proclamation to the Red Army issued by the Hungarian Soviet government, according to a Budapest despatch received here. After referring to "the great sacrifice demanded by the proletarian fatherland in asking the army to evacuate part of the territory conquered in glorious battle," and proceed to another territory occupied by Romanians troops, the proclamation continues: "We are not retreating before the mercenary troops of the Czech-Slovak imperialists. We have to do with the entire power of the greatest exploiters of the world—the French, British and American money kings, labor oppressors and peasant plunderers. We know a dictated peace is no peace and we shall not lay down our rifles because we are defending to the last drop of blood the proletarian dictatorship."

PLAYGROUNDS OPENED TODAY

Scores of youngsters of varying ages flocked to the playgrounds this morning when they were opened for the season. At Aberdeen grounds many of them were there long before the opening hour, they were joyful as could be with the games and apparatus provided. Miss K. I. Gallivan and Miss Eva S. Lettney are in charge of the grounds and they were busy today getting things in order for the summer season. The swings, "teeters" and other apparatus proved popular and it is expected that the playgrounds will be well patronized. The young ladies were greatly assisted today by Mr. McQueen, sailor.

ARE WORRIED OVER TURKISH SITUATION

Paris, July 2.—(By The Associated Press)—The Turkish situation is giving reports indicate that there have been orders from Constantinople. These armies are concentrated at Amesia, Balikesir and Konia. The Turks at Konia are threatening the Italians, while those at Balikesir are opposing the Greeks. As the position of Constantinople has been much weakened by the refusal of the conference to consider proposals from the Turkish delegates immediately, it is feared that independent movements will develop throughout Asia Minor.

DESTROYING PROPERTY

"When I become a man I put away childish things," is a quotation, but does not apply always, as was proved last evening when two or three young men, old enough to know better, tried to tear down a portion of the fence surrounding the Hampton tennis court. Fortunately they were seen in time and stopped by one of the members of the club, but not before they had done some damage. Being ashamed of their handiwork they would not pay for the damage if it was not the first time this has happened, but it is hoped it will be the last.
