A DAY; HOME and a days of the second second

THE HASSAM PAVING

seems to know anything about it. Now, really, if you came out of your re-served seat—out of the amusement hall— and acted as in your own business, as good business men—would you be willing to have men who know as little about the class of work as results have shown you do in regard to paving, go in your private business—in your interest—and in such a way? Would not your own plain business common sense tell you that it was not for your good looks or your pleasant company that you were thus freely entertained, but that somebody would have to pay for it in some way?

Could Not Walk Across the Then again, does not an excess of sand in cement reduce the strength of a gran-ite-like substance to an inferior sand stone, Room-Story of Her Speedy

For Good Health

You might as well expect to find a man or woman healthy with constipated bowels as to find a city healthy when its sewers are blocked with refuse.

Nature demands that the indigestible food and waste matter which collects in the lower bowels shall be got rid of at least once in twenty-four hours. If this is not done it decomposes, filling the bowels with poison, which is taken up into the blood and carried all through the body.

Naturally, this poison affects the work of every organ. The liver is deranged, digestion is upset, and biliousness, headaches, lassitude and dizzy spells follow.

Literally millions of people suffer these results of constipation without realizing the cause, or doing anything to remove it. Yet it can be removed, easily and with certainty, by using Dr. Morse's Indian **Root Pills**.

Take, for example, th Andrews, Halifax, N.S.

"For many years I h and I have stipation brin have taken in in the same these Indian Root Pil for me, for ned to give them a fair trial. They mach and bowels. I am cured of therein that I d ave regula nd claim they have no equal as a me
