## MAYOR WHITE IS FAVORABLE TO INQUIRY PLAN

Speaks of Matters Relative to Which Petition Is Out

MORE BOOTHS IN CITY ARE OPENED

Five Now in Which Signatures to Document Will be Received

Mayor White this morning said that he had noticed there was a petition being circulated asking that the city government be subject to scrutiny and he was in complete accord with such a request.

"I have already stated on many occasions," he said, "that I thought it would be a very wise course to pursue, and not with any suspicion of wrongdoing, but rather to see if more up-to-date methods might be introduced and economy effected."

"Such investigation should not be confined to affairs of the city proper, but should be directed as well to the affairs of the municipality and to the school board."

ONE NAME IN MIND

"It was my intention to give some publicity in the near future to this matter. The difficulty appears to consist in the selecting of experts who will have the entire confidence of the community, both from experience and the result of their examination."

"I have for some time been endeavoring to get in touch with at least one suitable person. A name has been submitted and I have asked for further information in regard to his qualifications."

MORE BOOTHS OPENED

Booths in various parts of the city and east Saint John have been opened to allow ratifiers to sign the petition, now being circulated by a committee of citizens, asking the City Council to appoint experts to examine into and recommend upon the tax systems and the city finances generally.

The places where the petition may be signed are as follows:

- F. W. Munro, drug store, 387 Main street.
- Old Police Station, North End.
- E. R. W. Ingraham, drug store, 131 Union street, West Side.
- McMannan's drug store, 207 King street, West Side.

## Awaiting Word of Clock Contract

Walter W. Allingham, district resident engineer of the Federal Department of Public Works, said today in answer to a query that he expected the contract for the installation of the clock on the renovated old Post Office building in Prince William street to be awarded within a few days.

Tenders which had been called, he said, closed on July 18 and he was looking forward to receiving the names of the successful bidder any time now.

People were so used to glancing up at the time piece that they usually do so yet, though it is a good many months since Father Time had one of his stations there.

## SEE THE FALLS

At high tide the water of the Bay of Fundy reaches a higher level than the water of the Saint John river and forces its way through the gorge of the falls, creating a "Falls" running up river.

At low tide the water in the Bay becomes so much lower than that of the river, that the fall of water is reversed and flows down river into the Bay.

At half tide, when the level in the Bay and River are about equal, the falls disappear entirely, and water at the Falls becomes smooth as the surface of a lake.

To fully appreciate this wonder of the world it should be seen at all three stages.

The best time to view this phenomenon is:

### As Hiram Sees It

THE SETTLEMENT—Hiram! It's queer how a fellow's dreams are affected by what's goin' on around him. I was leavin' a noose on a tree when the hammy yesterday an' got dreamin' about somethin'. I was tryin' to tell somethin' to somebody an' couldn't make 'em hear because a dog seemed to be barkin'. The louder I holler'd to my dream—the louder he barked. An' then all at once I woke up—an' there was a dog at the end o' the veranda barkin' with all his might. Hanner says it was a good thing I was in the hammy—fer she's got to hev the foot o' my bed braced where I got it broke loose kickin' it when I come out o' dreams an' nightmares at night. It's a curious thing what runs through a fellow's head when he's dreamin'. I been quite a fellow in some o' my dreams—but when I woke up I was the same old Hiram, with a kink in his back an' a hard day's work ahead o' him—yes, sir.

HIRAM.
