> Made at the One-Hundred Foot Level of Buckhorn Mine in Deadwood Camp.

Another Smelter for the Bourdary--New Machinery for the B. C. Mine.

(Special Correspondence of the Times.) Greenwood, April 14.-To-day the correspondent of the Times was out to the Buckhorn mine in Deadwood camp, where a strike of considerable importance was made. For the past month a crosscut from the 100-foot level, in the shaft, has been driven in a north-westerwork is in 170 feet from the shaft, and | the supply of electricity." for the last 20 feet has been in the outer edge of the ore body, with stringers of copper ore coming in pretty freely. Yesterday the drills ran into a large pocket of chalcopyrite, that filled to a Richard Hall at a Loss to Select His Ticketlarge extent the fact of the workings. Milne, C. H. Lugrin, Geo. Jeeves, H. D. believe that in 1865 the Vancouver Island. I tion to the usual oath of fealty to the To-day the whole face, while more or less broken up at that depth, was ore. In places the bright colored chalcopyrite showed up plainly, but it was only in small bunches and stringers. It is thought by Superintendent Thomas that in a short time they would come into a solid body of this character of ore, which is extremely rich, an assay of the same running 32 per cent, in copper. present showing is splendid, and if a body of the richer class of ore in encountered, similiar to the pocket, the mine is a rich one in leed. At the 200foot level crosscutting has started both north and south. The work each way is in 30 feet. A cage, made at the mine, education also very early occupied the the barrack rooms. The regulation iron has been installed, and is working well. On the Brandon & Golden Crown mine tice without sending East for them, and in Wellington camp, crosscutting is in lished. The first high school was opened the heavy freight bill which would thus progress at both the 150 and 300-foot tinued to be the only institution of the advisable. Major Benson therefore had a depth of 325 feet. The total work to-

levels. The main shaft has been sunk to day on this property is 2.250 feet. Ore bins holding 800 tons have been constructed, and are already filled with 400 tons of high grade shipping ore, and 400 tons of second grade ore, which will be shipped to the smelter as soon as the sub-spur to the mine from Hartford junction is completed. Andrew Laidlaw, of the Spokane mining brokerage firm of Massam & Laidlaw, after spending two weeks in the city, has returned to the Falls City on

This was the very in order to give the preference to those did rate on electrical power from the that he did." Granby Smelter Company; the other is at Boundary Falls, three miles south of are sufficient to generate power suitable for his purpose. He has made an offer to purchase the power of Boundary Falls from the owners. This deal may go through, for his terms have been accepted. In the meantime, however, he has arranged for ore from the following mines: Mother Lode, in Deadwood camp, B. C., and the Oro Denero, in Summit camp; Winnipeg and Golden Crown, in Wellington camp, and small parcels from about 20 other properties in the district. Just before leaving the city Mr. Laidlaw closed up another deal, securing a bond on the Moreean claim, in Deadwood camp. This claim is the southern extension of the Buckhorn, and has the

of surface crosscuts. It is owned by bond runs until February 15th, 1900. The development consists of a 20-foot shaft and a 50-foot open-cut, and numerous prospect holes in the side of the hill exposing the ore body. Mr. Laidlaw's operations in the one camp of Deadwood during the past few weeks has resulted in his acquiring for his clients the Standard, the north extension of the famous Mother Lode mine; the Moreen, the south extension of the Buckhorn mine; the Marguerite group, near the Standard, and the Bengal, Badger and Bristol claims in the south end of the camp. R. L. Armit, the representative of the

sampling works at Nelson who desires to move that plant to this city, is again in town. He is accompanied by L. G. Wolfe, a practical sampler man. Mr. sonable unit which this country might Wolfe appeared before the board of trade at its annual meeting and discussed at length the advantages of a members of the present command and sampler to the Boundary district. The the corps to which they formerly be- board of trade is now moving to secure to the city this plant, which has a daily Fifth Regiment, C.A., Victoria-Sergt. capacity of 250 tons. The city will probably give a bonus to Mr. Armit, if terms can be arrived at, for the establishment of a sampler at this point. Mining men interviewed by the correspon-Sixth Rifles, Vancouver-F. Case, G. dent are all in favor of the propositions McArthur, A. W. Shrewsbury, Geo. It rests with the Greenwood citizens whether the same shall be established. At the B. C. mine the work of installing the new machinery plant is being rushed. Superintendent' Parrish in formed the correspondent last night that the two 80-horse power boilers were in place, and the brick work finished. The foundations for the 80-horse power engine and the compressor, which is half of a duplex 20 drill plant, are about completed. The development is at present being confined to the second and third levels. On the second level, at a depth of 160 feet in the shaft, they are drifting in ore both north and south. Of the third level, at a depth of 260 feet, only the south drift is being opened up. The total ore shipments to date to the. Vancouver; third vice-president, J. D. ed to deal with the whole question of Trail smelter exceed 2,000 tons. During question of cost for these fire- people well, and keeps all from sickness Buchanan. New Westminster; secretary, municipal assessment in a judical prac- the installation of the new plant the shipments have necessarily been cut

down, and hardly a car load is being taken out. During the work of cutting out the foundation for the new plant, what is believed to be a parallel ore body was opened up on the surface. Mr. Parrish says he will make further exploration of this discovery just as soon as the plant is completed and in working

Work started to-day on what promises to be the biggest local enterprise in Boundary district. This morning a party of engineers commenced making preliminary surveys for the line of the Greenwood and Phoenix Tramway Company, from this town to Phoenix, a distance of seven miles. George H. Collins secretary of the company, to-day said: "The approximate cost of the seven miles is one hundred and fifty thousand dollars. We shall build branches into Greenwood, Deadwood. Wellington and Summit camps, and also between here and Midway on the Intercolonial boundary line to connect with the Great Northern. Fully half a million dollars is required and this money is being invested by prominent American railroad men who are shareholders in the local company. We will push work to a speedy completion. Arrangements have all been completed with the ly direction to the main ore body. This | Cascade Light and Power Company for

The Conservative Convention.

meeting last night took no action in regard to rescinding the policy adopted a few days ago in regard to party lines. A motion to that effect was introduced, but the party lines men talked out the patience of the audience, which quietly dissolved without any action being taken excepting to arrange for another meeting on Monday night. The executive will meet on Friday evening. It is understood that on Monday evening an attempt will be made to draft a straight party ticket, though it is by no means improbable that the whole question will be reopened at that gathering.

Richard Hall, upon being asked this morning if he proposed to contest Victoria again, said that he hardly knew what course would be followed by him. Being a Liberal he could not run on the same ticket as his former colleagues, if a straight Conservative ticket was insisted upon. "Run like me, as an independent, suggested Capt. Irving.

In an interview at Vancouver, Hon. Smith Curtis is said to have stated that the government would pass a special order-in-council, if returned to power, granting the privilege to Toronto capitalists to build the Kettle River road into Grand Forks. He stated that he had suggested such a course, but that the builder would have to sell the road back to the government if the latter wanted it. He further said that the government would follow closely the construction of the road to ascertain the exact cost.

C. E. Tisdall, of Vancouver, is likely to be a Conservative candidate for that city. A labor ticket there also seems

A special to the Vancouver World from Port Haney, speaking of Monday this city. The falls of Boundary Creek | night's meeting, says: "The Hon. Jos. Martin addressed a crowded meeting here last night. He was preceded by Hon. G. W. Beebe, who made an excellent impression. Mr. Martin was well received, and his reference to the trunk road and the railway proposition received loud applause. R. McBride followed, but was evidently ill at ease, and all he said was that he did not do as well at such gatherings as when he had the meetings all to himself. It is generally admitted that McBride lost ground, while Martin gained."

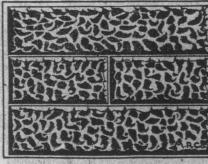

WHEN DOCTOR SAYS "HOPELESS,"

South American Kidney Cure Steps in and Cures Bright's Disease and Other Kidnev Disorders

It is really wonderful the number of socalled hopeless cases diagnosed so by the best physicians in the land, that have been radically cured by South American Kidney Cure. It goes directly to the seat of the trouble, dissolves and eradicates from the system every impurity that would clog these organs and prevent them performing their perfect function. Thousands have written voluntarily to say "It has cured me."

Sold by Dean & Hiscocks and Hall & Co.

Are you Building? **Rock Faced Stone** Steel Siding, Galvanized or Painted.

It makes a wonderfully durable and economical covering for new buildings, or for improving old ones. Gives a most handsome effectis very easy to apply - offers fire proof protection - and can't be penetrated by dampness.

By deciding in its favor you'll get the best results, at least expense. Write us if you're interested, we'll send full information.
