SCORING VERY LOW AT SUSSEX DUE TO HEAVY WIND AND RAIN

The 42nd Annual Meeting of the New Brunswick Provincial Rifle Association Opens—Attendance This Year Second Largest on Record—Highest Score in Nursery Match is 31—Today's Programme.

SUSSEX, Aug. 18.—The 42nd annual meeting of the New Brunswick Provincial Rifle Association opened today. The attendance this year is larger than usual, being over ninety, the second largest on record. Many familiar figures are already on the firing lines, such as Major O. R. Arnold, who is officiating as range officer; Major J. S. Frost, P. R. A. secretary; Major O. W. Wetmore, a frequent competitor; N. J. Morrison of St. John, J. P. Bustin of St. Stephen and Major J. M. Kinneer, the local veteran are present, including a contingent from Grand Falls. A heavy rain in the morning caused the opening match to be postponed until after luncheon. Even then the weather was dark and misty, with frequent showers of rain and a gusty wind. The scoring so far has been very low, owing to the wind and rain. The highest score in the nursery match was 31. The following is the result of the shooting in the nursery match. Nursery sighting shot and 7 shot at 600 yards: J. G. Sullivan, sergeant 3rd B. C. A., points 29; J. Donnelly, St. John R. A., 31; R. S. Freese, Sussex R. A., 29; G. A. Dickson, St. John R. A., 29; W. Dickinson, Woodstock, 28; C. E. Sharp, Woodstock, 28; W. Crandall, private, 6th, 28; F. Price, Grand Falls, 27; G. S. Wilcox, Moncton, 27; W. R. Campbell, Moncton, 26; C. A. Ester, Grand Falls, 26; A. R. Boss, Moncton, 26; O. A. Burnham, St. John, 25; J. L. White, Grand Falls, 25; F. M. Merritt, Marysville, 25; J. H. McRobbie, St. John, R. A., 25; J. E. Page, Tracy Mills, 25; H. H. McAdam, St. Stephen, 25; A. G. Staples, St. John, 25; C. E. Fairweather, 7th, 24; F. A. Good, 6th, 24; A. McDonald, Moncton, 24. Maiden team—1st prize, \$12. Grand Falls, points 77; 2nd prize, \$9. St. John R. A., 78. At the conclusion of the Nursery match the Dominion match was shot on ranges 500 and 600 yards, a sighting shot and seven shots on each range. Although the weather still continued unfavorable some good scores were made. S. B. Bustin of St. Stephen getting the possible 35 points, scoring seven consecutive bull's eyes. The highest scores in the Dominion are: S. J. Burlock, private, 6th, points 65; A. Meers, St. Andrews, 63; Sgt. I. P. Archibald, 3rd R. C. A., 63; Major O. W. Wetmore, 7th Regt., 62; A. R. Jardine, Moncton R. A., 61; Sgt. W. E. Forbes, 7th, 61; Lt. A. B. Magee, 7th, 71; Lt. H. A. Chandler, 7th, 61; F. Price, Grand Falls, 60; Sgt. D. L. Campbell, 7th Regt., 60; Sgt. J. F. Downey, 62nd Regt., 60. The Prince of Wales match, eighting shot and seven shots at 200 and 600 yards, was begun at 6 o'clock and concluded about 7.30. This match resulted in a tie between M. Hagarty of Moncton R. A. and Capt. E. A. Smith, R. C. A., 63. The full prize lists for the Dominion and the Prince of Wales matches will not be posted until tomorrow. Tomorrow's programme consists of the association match, a three range match, sevening shot and seven shots at 200, 500 and 600 yards. This match starts at 8.30 and lasts all morning. In the afternoon the Nelson match at 800 yards, eighting shot, 10 shots.

JACK LEYBURN WINS QUEEN CITY TROT

First Heat Goes to Locust Jack

GRAND CIRCUIT MEET

The Eel Takes the 2.16 Pace—First Heat Done in 2.02 1-2

POUGHKEEPSIE, N. Y., Aug. 18.—The feature of the opening day of the Grand Circuit meeting at the Hudson River Driving Park today was the 2.16 pace, in the first heat of which The Eel went in 2.02 1-2, beating the track record, the horse's own record, and being the fastest mile paced on the Grand Circuit this year. The Eel's chief competitor was George Gano. This heat was a great race between these two horses to the three-quarter pole, the first quarter being made in 29.4 seconds, the half in 58.2 seconds and the three-quarters in 1.31.1-2. It was then that Gano began to slacken speed and The Eel won in 2.02 1-2. The Eel won the second and third heats in 2.05 and 2.06, the last quarter of the second heat being paced in 29.1-2 seconds. Jack Leyburn won the 2.09 trot with comparative ease, after losing the first heat owing to a break soon after the word was given. This heat went to Locust Jack, being the first heat he has won this year, and reducing his record from 2.11 to 2.08 1-2. Geers won the 2.16 trot with Loyl, after losing the first heat to Bates. No pools were sold. The attendance was equal to the average for the first day. The Queen City, 2.09 trotting, 2 in 3 heats, purse \$2,000. Locust Jack, gr. g. (McHenry) 1 2 4 Margaret O. b. m. (Davies) 2 4 3 Nahma, b. m. (Andrews) 4 3 3 Sterling McKimney, br. h. (Geers) 5 6 5 Daniel, br. g. (Andrews) 5 6 6 Miss Adbell, b. m. (McDonald) 7 5 4 Time—2.08 1/2, 2.07 1/2, 2.06. The Vassar, 2.16 trotting, 3 in 5 heats; purse, \$1,500. The Eel, gr. h., by Gamboller 1 1 1 George Gano, b. m. (Cox) 2 3 3 Fender, Jr., ch. g. (Geers) 4 3 3 Hallie Direct, chm. (Schaeffer) 3 4 4 Time—2.02 1/2, 2.05, 2.06. The Vassar, 2.16 trotting, 3 in 5 heats; purse, \$1,500. Loyl, b. h. by Boreal-Meyllian (Geers) 3 1 1 Raffle, blk. g. (Burgess) 1 2 3 4 Prince C., br. m. (McHenry) 2 3 2 Ceeval, b. m. (Andrews) 4 5 2 3 Sid Axworthy, ch. h. (Cox) 5 4 5 4 5 Muncie, ch. g. (Murphy) 5 4 5 4 5 Time—3.11 1/2, 2.10 1/2, 2.11, 2.14.

AWAITS BATTLESHIP FLEET

SYDNEY, N. S. W., Aug. 18.—Sydney is awaiting the American battleship fleet with expectancy, and the seven days that the vessels will be here will witness a series of entertainments more elaborate than ever before given in New South Wales. Sydney is filling up with an enormous influx of visitors from the country, and the transportation facilities have been taxed to their utmost. The decorations have been carried forward on an elaborate scale.

SUSSEX SCOTT ACT CASE

SUSSEX, Aug. 18.—The Scott Act case against William Cummings was begun before Judge Hornbrook here today. Two witnesses were examined, James Lehey and Howard McKenna. One testified to obtaining whisky in Cummings' place and the other to getting into the house. The inspector asked for an adjournment of one week in order to get another witness. The case was stood over until Thursday.

APPOINTED TO QUEEN'S

KINGSTON, Aug. 18.—Rev. E. F. Scott, M. A., of Prestwick, Ayrshire, Scotland, has been appointed professor of Church History at Queen's University. He was in the ministry of the United Presbyterian Church and is a theologian of ability and a preacher of eminence. He is a graduate of Glasgow and Oxford.

CORNWALLIS VALLEY A DREAM OF WELLNESS, SAY SCOTCHMEN

Visiting Agriculturists Charmed With the Scenery—Dr. Carlaw Martin, Chairman of the Commission, Talks to The Sun About Their Canadian Trip—More Than Delighted With Cordial Reception Received.

The chairman of the Scottish agricultural commission which spent last night in St. John is Dr. Martin of Dundee. Dr. Carlaw Martin is editor of the Dundee Advertiser, the principal Scottish newspaper of Liberal politics, and an important organ of agricultural affairs. He travelled in the United States and Canada in 1903 on a mission of inquiry into the leading branches of commerce associated with the land. He was a member of the Scottish agricultural commission to Denmark (1904) and to Ireland (1906), and along with Mr. Hodge edited the Reports, Farming in Denmark, and The Revival of Agriculture in Ireland. Dr. Martin was elected as chairman when David Wilkie, who had been appointed to that office, found it impossible to join the party owing to one of his limbs being burned down. Talking to The Sun last night of his trip through the Maritime Provinces Dr. Martin said: "We entered Canada at Rimouski and passed as rapidly as possible to Prince Edward Island. The work of the commission did not begin seriously until they had seen the tracts of land between Summerside and Charlottetown. We were much impressed as seen under ideal atmospheric conditions and by the evidence of long settlement with the farms well stocked with homes in which the people evidently take pleasure in living. "Some of the farm homes visited showed a real desire to be surrounded by things of taste and culture. The soil of the island struck us as naturally good for agriculture. It is on the new red sand stone and is easy to work, but the quality of the present farmers has not yet carried them towards the general use of fertilizers. Possibly much more could be made of the resources of the soil by the farming on a smaller scale of holdings but interest in the soil is not universal. "The members of the commission who have been in Denmark were of the opinion that Prince Edward Island offers an admirable opportunity for dairying on the co-operative principle. The farms could then be cropped with a view to feeding the dairies. "WOULD BE MORE TILLAGE. "There would be more tillage and the organization of the system of creameries would result in the butter being placed upon the market in better condition and in uniform quality. "The problem of retaining the people of the island on the farms is an interesting one. The local committees are another body which are together required to organize a co-operative system such as exists in Denmark. "The Scottish visitors were made acquainted with the features of the island in a thorough way by the kindness of Mr. Hazzard, the premier, and other leading citizens. "It is due to the farmers of Prince Edward Island to say that the whole surface of the country shows signs of careful and thrifty treatment.

CORNWALLIS VALLEY.

"The wide spaces of the Cornwallis Valley seen from the mountains above Canning were a dream of loveliness. Here nature in serving the purpose of man has not lost her pristine beauty and the historic background formed a never-to-be-forgotten picture on their minds. "The visiting agriculturists being Scotchmen, do not pretend to form final opinions at this stage of their journey or even to do more than indicate views by themselves in the end must be authorized by the whole body. They are more than delighted with the cordial reception they have received everywhere on their visit to the provinces. "Some of them have visited Canada on former occasions, but all of them feel that they enter the great river highway to Canada they are entering into the friendly thoughts of a confederation of fellow-citizens of a common Empire. They will carry away much knowledge acquired with that intimacy which comes only with seeing with their own eyes and hearing with their own ears. "They have formed many enduring associations and they will retain memories of Canada that, told at the firesides of Scotland, may influence many of Scotland's children to come to make themselves a home among the Canadian people. "Much to their regret their time is limited. Life is short and the Canadian Dominion is very long, but with the generous assistance they are receiving at every part of their rapid pilgrimage they are certain to lay and possibly in their report to use much knowledge of value both to the people of Scotland and of the Dominion."

CLARK AND ADAMS WILL BUILD NEW WEST SIDE WAREHOUSE

Their Tender of \$15,642 Was the Lowest of the Six Made—A Remarkably Low Figure—A Committee Appointed by Board of Works to Look Into the Matter of Lengthening the Life of Wooden Paving Blocks—No Action on the Stanley Street Bridge Matter.

Clark & Adams will build the new warehouse on South Rodney wharf, West End. Their price is \$15,642. The tender of Messrs. Clark & Adams was the lowest of the six made. The cost of No. 3 warehouse, which was completed in time for last season's winter trade, was \$17,850, and the shop was fifty-four feet shorter than that which Messrs. Clark & Adams have contracted to build. It will be seen that if nothing occurs the city will have its newest warehouse erected at a remarkably low price. The tenders for the warehouse were opened by the Board of Public Works yesterday afternoon. The board at its meeting also decided to have a committee look into the matter of lengthening the life of wooden paving blocks by having them put through some process of treatment. Some of the sidewalkers wanted new asphalt pavement laid, but were informed that no provision had been made in the estimates for such work. Director Peters was asked to report if there was any way in which a portion of the appropriation could be diverted to re-paving.

On motion of Aid. Sprout the director was instructed to purchase a number of suitable trees. In reply to a query of Aid. Rowan, the chairman informed the board that the work on the Stanley street bridge was proceeding. Director Peters had ordered the work not to cover the tracks of the Street Railway Company. Aid. Elkin then introduced the subject of the treatment of wooden paving blocks with a certain preparation and which was ready to supply either the preparation or the blocks. The price of the liquid in carload lots was 65 cents per gallon; in smaller lots, 80 cents. The wooden blocks cost \$1.25 per square yard.

SHOULD BE GIVEN TRIAL. Aid. Elkin said he had been informed that blocks could be treated in seven minutes and thought the preparation should be given a trial. He also read a testimonial of the city engineer of Vancouver. Engineer Peters, when asked, said that any treatment of wooden paving blocks was beneficial. Before the fire blocks treated with concentrated oil were laid on Prince William street and lasted without rotting until worn down to an inch and a half. Aid. Frink remarked that an expenditure of \$50 would enable an experiment to be made on the Stanley street. Aid. Rowan said the only place where the experiment could be tried was between the car tracks, as there were no blocks for street paving. The matter was left in the hands of the chairman, the director and Aid. Elkin. Aid. Baskin wanted to know when the asphalt plant would be removed to West Side. Director Peters said the crew would go over at the first of next month. Aid. Baskin expressed the opinion that the material used in making the asphalt walls was too soft and wore out too soon. Aid. Rowan moved that the director report at the next meeting on the ability of having new asphalt laid down. The meeting then adjourned.

LOCAL NEWS. Sale of trimmed hats, \$1.00 each, at Mrs. Brown's, 51 Brussels St. The beauty of Ungar's laundry work is not at all on the outside. It goes right through. Tel. 53. Get the habit of having your clothes repaired and pressed at McPartland, the Tailor, 72 Princess street, Clifton Block. Phone 168-11. Our stage beneath its sheltering dome Has seven samples of "Salmons", Which goes to show 'mid proof galore New York's the home of Terpsichore. E. G.

TENDERS WERE OPENED. Tenders for the erection of the new West Side warehouse were as follows: Bates & Flood, \$22,600; B. F. Carney, \$18,480; A. E. Hamilton, \$17,545; S. A. Williams, \$20,000; D. W. Clark & Sons, \$17,327; Clark & Adams, \$15,642. On the motion of Aid. Rowan, the lowest tender was recommended to be accepted. Aid. Frink brought to the attention of the board that the trees on King square should be removed. He suggested that white maple would be a suitable tree. Aid. Baxter thought tree planting could be done in other sections of the city. Aid. Kelly suggested that Haymarket square might well have a few.

On motion of Aid. Sprout the director was instructed to purchase a number of suitable trees. In reply to a query of Aid. Rowan, the chairman informed the board that the work on the Stanley street bridge was proceeding. Director Peters had ordered the work not to cover the tracks of the Street Railway Company. Aid. Elkin then introduced the subject of the treatment of wooden paving blocks with a certain preparation and which was ready to supply either the preparation or the blocks. The price of the liquid in carload lots was 65 cents per gallon; in smaller lots, 80 cents. The wooden blocks cost \$1.25 per square yard.

SHOULD BE GIVEN TRIAL. Aid. Elkin said he had been informed that blocks could be treated in seven minutes and thought the preparation should be given a trial. FIRE AT SEA CAUSED DREADFUL PANIC

Three Hundred Terror Stricken Passengers Rushed for the Boats and Six Were Drowned. LISBON, Aug. 17.—The Dutch steamer Amstelland arrived here today from Rio Janeiro and further details of the fire and panic aboard the vessel while she was off the South American coast are given by her captain. He reports that when twenty-four hours out from Rio Janeiro the fire broke out in the cargo of baled wool and that a dreadful panic ensued among the 289 Portuguese and Spanish passengers, all of whom were in the storeroom. A general rush was made for the small boats, one of which containing twenty passengers were plunged into the sea as a result of the frenzied cutting of the davit cable. Six of the occupants of this boat were drowned. The others were rescued. The fire on the Amstelland was extinguished before much damage was done, the boats returned to the steamer and the voyage was resumed. Some funny things happen in the schoolroom. A Brooklyn teacher called upon a small boy to define "multitude." "A multitude," said the boy, "is what we get when we multiply."—August Lippincott's.
