### ARBITRATORS UPHELD STREET BAILWAY CO.

TORONTO, Aug. 2.—At the time o the Winnipeg street railway strike some of employes of the Toronto Street Railway left their jobs and went to Winnipeg where they assisted in breaking the strike. At the end of the trouble there they returned to Toronto and went back to work on their old jobs. As a result some of these men were assaulted by other employes of the Toronto Street Railway, and the management dismissed the men who took part in the assault. The union threat-ened to call a strike and under an agreement the company has with the union the case went to arbitration.
The two parties selected Judge Maber as third abitrator. Today a decision was handed out unanimously upholdwas handed out unanimously upholding the right of the company to engage and discharge at its discretion, subject only to any existing agreement and to the laws of the land. The refusal to dismiss the men engaged in the Winnipeg strike was most justifiable. The arbitrators consider it in the best interests of all concerned that the company should reinstate to their former positions the men discharged for assault. The company and the union to bear the costs of the arbitration equally, each side paying their own arbitrators each side paying their own arbitrate and halving the cost of the referee.

### ROOSEVELT TO RECEIVE THE NOBEL PRIZE

STOCKHOLM, August 4.-It was stated unofficially today that President ocsevelt is to receive the Nobel prize recognition of his services in ending a Japanese-Russian war. The foral announcement of the award will made by the King of Sweden on

December 10.

Swedish papers are also discussing the possibilities of Col. William Jennings Bryan receiving an award of the Nobel prize in the future because of his efforts and speeches in favor of peace at the Interparliamentary Congress in London. It is admitted that the amendments which he offered have gone farther toward doing away with the possibilities of war between the great nations than any effort in recent years. Some of the publications which take an interest in the prize say that Mr. Bryan's amendments in favor of peace will have greater direct effect upon the future of nations than Mr. Roosevelt's gracious actions leading up to the Russo-Japanese settlement at Portsmouth, N. H.

St. THOMAS, Ont., Aug. 3—Newton R. Stonehouse is locked in Elgin county jail, and his wife, Mrs. Cora Stonehouse is under arrest in the detention ward of Amasa Wood hospital charged with the most heartless and disgusting attempt at child murder happening in the history of this city. It seems that Guanajuato, the gold and silver city in question, was built by the Spaniards when they conquered Maxico. It is, indeed, the oldest city in that state.

Most of this went to enrich the king of Spain and to enable that monarch's nobles to build those substantial, if hideous, buildings which today, in one respect, make castles in Spain extremely solid facts.

The man who profited most from La Luz was Zambrano, who, though he spent the major portion of his time in the gay capitals of Europe, was well known in Mexico. He, it is said, left a modest fortune of \$60,000,090 as a result of his peons labors at La Luz.

Before being deserted, about the time of the revolution in Mexico, it is calculated that the mines of La Luz were producing for their proprietors about \$6,000,000 a year.

## HEAT IN NEW YORK

NEW YORK, August 4. - The heat NEW YORK, August 4. — The heat being now intense, ladies are mostly clad in white. White, indeed, enjoys even greater vogue than last summer. White linen, white veiling, or crepe de chene are made up into exquisite gowns, suitable either for town wear or for the seaside or country. BERLIN, Aug. 4—The great society scandal at Munich is causing intense excitement in Bavarfan society. One royal prince, two dukes, about twenty counts, and many lesser members of the nobility are involved in the scandal, which has overwhelmed many leading Bavarian families with grief and shame. The root of the whole evil appears to be a fashionable club at Munich, which is nothing less than a gambling resort of the worst type. T is easy to keep a hard-wood floor as clean and shiny as a mirror by using "SURPRISE" Soap. You can make a suds in a twinkling with half a bucket of hot water and a little "SURPRISE" Soap. Then just go over the floor wifh a scrubbing-brush, lightly. Don't dig, or make your back and arms ache by rubbing. "SURPRISE" Soap will do the work quicker and easier and cheaper than you can. It gets between the dirt and the wood fibres and makes them separate. All you have to do is wash up the dirt with water.

Among the newest summer hats, preference is given to a shape short in front, slightly curved downwards at the back, with large velvet bows. Large capelins in English embroidery trimmed with immense roses are also great favorites, particularly for country or seaside wear. Frequently, howers rather than roses, Italian straw hats, rich fantastic algrettes, are to be seen here in abundance, whilst for morning wear or dull, cloudy weather, small hats continue to be the fashion. They are made narrow, and are often draped with long veils.

A rather original hat of the small category is carried out in wheat-colored coarse straw. The drown is shaded by a long, brown mousseline de soie drapery falling lower than the waist, caught in front with two larges real "cabochon" stones.

will soon make public his program concerning the matter.

The condition of the Pope's health this mid-summer gives rise to serious anxiety. He is much troubled by gout, and in almost constant pain. His Holiness is also very depressed. He has not the ifon will power of Leo XIII., and he feels the matter of being compelled to remain in the Vatican very keenly. Cardinal Oreglia, who also suffers much from gout, recently experienced great relief from a change of air. When he visited the Pope on his return Pius X, said to him, "You seem to want me to die here in the Vatican, and yet I feel if I too could only have a change of air that I would be saved." But, at the same time, His Holiness' mental depression is such that he does not desire to face such a serious problem as that of leaving the Vatican would be.

If, however, His Holiness' state should get worse, and it should be Dr. Lapponi's duty to put the alternative before the Curia that Plus X. must either leave the Vatican or lose his life, the problem would be a very delicate one. That a section of the more broad-minded members of the Sacred College favors an understanding with the Quirinal is certain, but this is not the section that has the Pope's ear. The ultra-conservative party, headed by Cardinal Merry del Val, is practically supreme at present.

The eternal problem whether a The eternal problem whether a Catholic sovereign may visit the King of Italy in Rome has again come under discussion. The King of Portugal has never been in Italy. He once got as far as Paris on his way to the city of the Caesars, but was stopped by the Vatican. Now it appears that King Carlos had arranged to see his cousin. King Victor Emmanuel, at the Milan Exhibition, but this time it is the Italians who raise an objection. Even in the Senate and the Chamber of Deputies protests are heard, it being maintained that it would be undignified for King Victor to receive the Portuguese Sovereign anywhere but in Rome. That, however, is impossible, so the project will probably be abandoned.

There seems to be no doubt that the apostolic palace is in a grave state, and many walls are threatening to fall.
