☞ The report of the Shediac Rail Road Bill having been lost in the Council, when we went to press last week, has unfortunately proved but too true.—Here then we are again thrown back into doubt and despondency. Another year must pass before we can again be permitted to enjoy even the luxury of Hope.

It is true that a Bill passed the House at the last moment, incorporating a private company for the above purpose; but as the capital therefor must come from abroad, and no public guarantee is given for the interest, we may rest assured that the Bill will remain a dead letter.

THE COLONIAL SECRETARY.—By the latest Reports from the House of Assembly, we observe that the members went into Committee on a Despatch from Lord GREY, the Colonial Secretary, PROHIBITING *the Provincial Legislature from granting Bounties for the encouragement of Domestic Industry!*—The House very properly resolved to Address Her Majesty on the UNCONSTITUTIONALITY of such a command; though it occurs to us very sensibly that they have taken more trouble than such a ridiculous missive demands, and we cannot express our own sense of this attempted infringement on the privileges of a free born community, than by copying the following on that subject from the *Ordeal* of yesterday:

"And is it come to this? Are we the people of the British Empire to be told in the Nineteenth Century, when the whole world is looking for extended freedom? Are we who have a CHARTERED RIGHT, wrenched from the imbecile JOHN by the Barons of England at Rhenemedes? Are we to submit to the imperious and unconstitutional dictation of a Downing Street Popinjay, as to how we shall apply our Revenue. We as descendants of the Saxon race, as part and parcel of the ennobled British nation, partakers of their blood, and partners in their freedom. Are we, we ask, to fold our arms and bow in passive obedience to so tyrannical and haughty a dictation? We say NO! NO! NO! With every respect for the British Crown—with every love for its glories and its Constitution—with every desire to secure and firmly rivet British connexion—with every incentive and predilection for the Father Land, yet we *cannot*, we *must* not, and indeed we *will* not forget that self respect which is inborn in our natures, guaranteed to us by our glorious Constitution, and sealed and sanctioned with the blood of our noble ancestors. The great beauty of the British Constitution says DeLome is that no man can be taxed but by his own consent. It was a breach of this sacred contract by the British Ministry, in their attempt to impose Stamp duties and Tea tax on the Americans that caused the dissevernent of the United States from the British Crown, and we would ask when a Colonial Secretary attempts to interfere with the RIGHT of our domestic Legislature, are not our cases parallel,—If we are to take as the opinion of the British people—the opinion of such men as Hume, Cobden, and Molesworth, if we are to believe that the liberal papers of the Parent Isle give the tone of British feeling, we must arrive at the conclusion that they no longer wish to retain the Colonies.—If this really and truly be the deliberate opinion arrived at by the sense of the country, the sooner we are informed of it the better. We desire not to lean upon the Parent for support, we are if such be the wish of England, ready to assume the responsibility of self reliance, self support, and self government, and the sooner the arrangement be made the better. Our present state is pitiable, it is worse than degrading. Every day adds to our miseries, and to the diminution of our population.

The SPIRIT, FORCE, and ENTERPRISE of the country are fast fading from us, and all that remains are the most helpless, and the imbecile. We call upon our public men, we call upon the persons who own the Country, to come forward, and that too without delay, and by an expression of public opinion, firm, bold, and not to be misunderstood, grapple with the Hyena that now threatens our destruction."

HALIFAX "TIMES AND COURIER."—The editor of this paper labours under a delusion, and is guilty of libel upon the people of St. John, when he asserts in his piper of the 14th instant, that "the New-Brunswick Legislature having "passed the Great Railway Bill in opposition to "the good people of St. John, a monster meeting "was held in the City to condemn the Assembly's "proceedings."

It is quite true that a monster meeting was held, but be it known to that gentleman, that that meeting was for the purpose of eliciting the sense of the people in regard to the conduct of some of our City and County members, in not having supported in a proper manner the *Saint John and Shediac Railway Bill*, and to take such further action as would induce the Legislature to pass the same. We would further inform the editor of the Times and Courier that NO sectional feeling exists in this City with regard to Railways. The people would be glad to see one in operation in ANY part of the Province, convinced that it must be of *general* utility; and we know of but *one* man in this Province who has publicly expressed a contrary opinion—and that individual is the editor of the *Charlotte Gazette*, who imagines that every newly projected line, may tend to defeat the contemplated St. Andrews and Woodstock Rail, and who has not brains enough to foresee that any railroad between here and Halifax must eventually be continued to St. Andrews.

It is to be hoped the editor of the Times and Courier after being set right in this particular will contradict the libel he has so unwittingly committed on the people of this City, who are undivided in their support of the Great Trunk Railway.

THE WISDOM OF THE AGE.—We are informed that on a proposition being made in the Legislature for inviting Professor JOHNSTON to come to this country, for the purpose of examining the Soils, nearly every Farmer in the House voted against it. "When ignorance is bliss 'tis folly to be wise."

AGRICULTURAL.—The friends of Agricultural improvement will be pleased to learn that Mr. GREENSLADE, of King's County, who had been possible way the construction of the Great Trunk Railway from Halifax to Quebec. It is pleasing to learn that the Resolutions were passed unanimously:—

(From the Quebec Chronicle.)

RAIL ROADS.—On Saturday, Mr. Hincks gave notice that he would on Wednesday next move a series of resolutions, having for their object to give the Provincial guarantee, on certain conditions, to certain railway companies; and also, to aid in the construction of the Halifax and Quebec Railway.

(By Telegraph.)

On motion of Mr. Hincks the house went into committee to consider the subject of affording Legislative aid to Railway undertakings.

After a long discussion several resolutions were carried unanimously.—*Morning Chron.*

SAW DUST.—The Legislature have passed a Bill prohibiting the throwing of Saw Dust into, or in the vicinity of this harbour, or allowing it to run into the same by any manner of means, under a severe penalty. It is to be hoped that the injurious practice will now be put a stop to.

FIRE AT TORONTO.—A destructive Fire occurred at Toronto on the morning of the 7th instant, which destroyed property to the amount of over £100,000. Among the ruins is the Cathedral of St. James, which was erected a few years since. It is the most extensive and destructive fire that ever occurred in that city.

☞ The steamer *Commodore* started yesterday morning for Portland and Boston, and the *Maid of Erin* went this morning; both filled with the bone and sinew of New-Brunswick—farmers, mechanics, and tradesmen—expatriated by unenlightened legislation.

SEED WHEAT.—A cargo of Wheat is expected shortly to arrive at Halifax from the Black Sea, for Messrs. Fairbanks & Allison. Our agricultural friends would do well to procure a supply of this article, and endeavour, if possible, by improving the quality, to prevent any failure in this valuable commodity; much of which no doubt proceeds from a want either of knowledge or attention in procuring the quality of seed most genial to this climate.

☞ A communication sent to us for insertion by Alderman Needham, in answer to that of H. Porter, Esq., in the Courier of Saturday last, is entirely too lengthy for our paper—it would occupy three columns, and must consequently be published in a separate sheet next week.

RAILWAY LEAGUE.—The Address of the committee for forming the Railway League is unavoidably crowded out of our present number.

LAUNCH.—On Tuesday last, a new Ship of 990 tons, called the "*Sir Harry King*," was launched from the Building Yard of John Hawes, Esq., in Portland. She is an excellent specimen of naval architecture, and having been completely and substantially iron kneed on the stocks, is in every respect as fine a vessel as was ever built at this port. She is owned by, and, we trust, will prove a source of profit to her enterprising builder.—*Courier.*

MELANCHOLY ACCIDENT.—We learn that a man named Bernard McCallum was found frozen to death in a canoe near McCoskery's Cove, Kennebeckasis, on Sunday last. He was observed on Saturday evening, urging his way through the drift ice, and was supposed to be seeking wild fowl.—Early on Sunday morning, however, he was discovered frozen to death. The canoe in which he was found contained a load of hay, which he had procured for the use of his cattle. The unfortunate man was 51 years of age, and has left a wife and four children to mourn their sudden bereavement.—*New Bruns.*

FEARFUL CONSEQUENCES OF AN AVALANCHE.—Those who read of the Alps are familiar with the *Avalanche*, but the *thing* itself is strange to most who have heard of it. An appalling one was dislodged, in our neighbourhood, at York Redoubt, near Ferguson's Cove, southward, on Thursday afternoon, which will be memorable to the family who have suffered from its effects.—A large mass of ice and snow on the slope of the hill, loosened by the thaw and rain, gave way and rushed downwards upon Mr. Thos Bazley's house, which was seated below, burying and wrenching it from the foundation. In the house an infant in the cradle was smothered to death; an elder child was so severely crushed that his recovery can hardly be expected. Mr. Bazeley himself received considerable injury, and his wife, advanced in pregnancy, suffered greatly from fright, though she fortunately escaped contusion. A girl and lad who happened to be outside, were forced by the driving mass, into the sea, but they regained the land; the lad, however, escaped narrowly, having got an arm broken in the scramble for his life. We have gathered these particulars from a hasty interview with Doctor Sawers, who was called to render surgical aid to the sufferers immediately after the disaster occurred.—*Halifax Recorder.*

The British Consul at Boston, under direction of his government, has offered a reward of £20,000 for the discovery of Sir John Franklin.

DROWNED.—On Wednesday forenoon, between the Sand Reef and Hospital Island, a boat was picked up full of water, with the body of an elderly man hanging over the gunwale, suspended by the waistcoat to the tholepin, and the head consequently immersed in the tide. The body was subsequently identified to be that of Mr. Isaac Purington, of Calais, Maine, a person in wealthy circumstances, and having in that quarter a highly respectable connexion.

The deceased, we now learn, left Calais on Tuesday morning, in a small, frail, row-boat, accompanied by a young man of 16 or 17 years of age, with the intention of going to West Isles; and it is supposed that the young man having by some means got overboard, he was in the act of striving to save him when he was caught in the manner mentioned and prevented releasing himself.—Screams were heard by the settlers along the La Tete shore on the Tuesday evening which it is now supposed proceeded from the drowning man.

An inquest was held on the body before the Coroner, Doctor Gove, and a verdict returned "found drowned."

The deceased was about 70 years of age. Nothing certain is known of the fate of the young man, although there can be little doubt that he was drowned.—*Charlotte Gazette.*

TO THE EDITOR OF THE CHRONICLE.

DEAR SIR,—Please correct an error in the last line of my Pamphlet in reply to Mr. WRIGHT'S "*Observations, &c.*" and read "*amount of three preceding years,*" instead of "*any preceding year.*"

Yours, &c.
R. BAYARD.

PIATS IN BANKRUPTCY.

James Barber, of the City Saint John, Merchant—Dated 7th April, 1849.
