firmative, but said they did not find this out till after the expenditure had been made. The present government, however, had not pursued such a policy.

Although the debt of the province is now about four millions and more money will be borrowed, the man who holds the purse strings says there is nothing to fear as he is determined that the interest account of New Brunswick will never be more than they can take care of. They have back of them seven million acres of virgin forest whose value cannot be over-estimated when it is known that 400,000,000 superficial feet of lumber is produced every year in New Brunswick, and this amount only represents the yearly growth of the forest. He went on to say that the government is now building bridges at St. John, at Newcastle and elsewhere at a cost

## MILITANT SUFFRAGETTES ARE NOW DISORGANIZED

Continued from page 1.

The Bishop of Kensington hinted that the church was now ready to become a positive force and would back up the women's movement conducted on the new lines.

Several speakers predicted that enfranchisement would be brought about as a result of the proposed campaign and by the agreement of all parties.

London, Oct. 19.—Suffragettes again interrupted the services today at St. Paul's and also at St. Luke's, Kensington, where the Bishop of London was preaching, by reciting a prayer for "Mary Richardson and Annie Kenney, who are being forcibly fed."

After the women were ejected from St. Paul's, they attempted to hold a meeting on the steps of the Cathedral, but the police interfered. A scuffle ensued and two women were arrested, charged with assaulting the police.

According to the official report of the militant organization, Fifteen American women also went to the Cathedral in order to demonstrate their sympathy with their English sisters, and to protest against the action of the authorities at New York in preventing Mrs. Pankhurst from landing.

## President Interested.

Washington, Oct. 18.—The President of the United States is to take a hand in deciding the question of whether Mrs. Pankhurst, militant suffragette of England, shall be admitted to this country.

President Wilson tonight called a conference for early tomorrow with Secretary Wilson, of the Department of Labor and Commissioner General Caminetti, of the immigration bureau. High government officials, who are believed to know the attitude of the President, predicted that Mrs. Pankhurst would be admitted.

Today Mrs. Pankhurst waited on El Island, and not without some impatience, word from the Washington immigration commissioner as to whether she would be permitted to land under bond to carry out her lecture tour or whether she must go back to France, whence she came here.

of four million dollars, and when the St. John Valley Railway is completed in 1915 their programme of railway construction will likely be halted, for a while at least.

Referring to the prospective claim on the federal authorities for additional revenue, the provincial secretary said that large land grants had been given to Ontario and the western provinces and he said this land was owned equally by the eastern provinces, according to the Confederation compact, hence the strongest possible claim which New Brunswick would be able to set up at the proper time.
