PRELIMINARY HEARING IN MENZIES' CASE

Two witnesses on stand yesterday afternoon—Will be continued today—Shortage in accounts.

The preliminary hearing into the charge of fraud preferred against George F. Menzies was commenced in the police court yesterday afternoon. E. C. Weyman represented the prosecution and L. P. Tilley the defence. The information laid against the defendant was read charging him with having on September 14th, 1912, collected \$8.10 from Miss Jennie Nixon and fraudulently converting it to his own use.

Mr. Weyman explained to the court that this was only one of many cases of a similar nature that would be brought up against the prisoner. Owing to the absence of Miss Nixon who was to be a witness Miss Bertha Weatherhead cashier of the Metropolitan Life Insurance Company, in this case was put on the stand and explained that Menzies had been employed by the company as an agent making collections about the city from different people. He had a certain number of industrial policy holders to call on each day and receive their weekly payments. He would enter the amounts collected in his agent's book and would collect a book for the amount received and held by the policy holder. He was supposed to make a daily deposit to the witness of the amounts collected. The defendant had been in the employ of the company during the months of June, July, August, September and October, 1912.

Mrs. Catherine G. Joyce of 17 Brunswick street was called. She testified that she knew the defendant and that he had called at her home on a number of occasions to make collections as not only she and her husband held policies but her children Clarence, Mary, William and Catherine were insured. Menzies collected from her once a week and gave her a receipt by signing his name in her book.

To Mr. Tilley witness said that she did not pay every week but let it run at times for two or three weeks but always paid in full when the time came. She had also paid money to Mr. Menzies of the company as well as to defendant.

Miss Weatherhead was recalled and recognized Menzies' signature in the agent's book as well as in the receipt books held by Mrs. Joyce. She explained the collecting system of the agents and in being presented with the books to examine she showed that on September 9th, 1912, Menzies had entered on the agent's book the sum of fifteen cents which he deposited with the company, while on that date Mrs. Joyce's book showed his receipt for thirty cents.

Mr. Weyman here informed the court that it was the prosecution's purpose to show a lot of such cases where amounts had been collected and not turned in to the company. Mr. Tilley stated that he had received a number of letters showing the defendant to be an excellent character, and one from the McCleery Company stating the defendant was one of their best employees in Winnipeg.

Mr. Weyman remarked that any of these letters did not bear on the charges that were made against the defendant in this case.

The case was adjourned to be resumed again this afternoon at two o'clock.

EMPIRE DAY IN DOUGLASTOWN
Newcastle, May 23.—A very interesting Empire Day program was carried out in Douglastown Superior School yesterday afternoon, the four departments uniting in the Principal's room. CLOSING EXERCISES AT ST. JOHN'S COLLEGE

Report of Rev. Dr. Campbell shows Good Results for Past Year—Degrees Conferred and Prizes Awarded.

Sackville, N. B., May 26.—This afternoon at two thirty the anniversary exercises of Mount Allison University, the oldest of the institutions here, was held in Fawcett Hall, a goodly number of visitors being present.

Dr. Palmer, principal, in making his report reviewed briefly the work of the past twenty years, the time that he has been principal of the academy. When he took charge the institution was under a heavy burden of debt and the number in residence was twenty. Now the academy, though many improvements and additions to buildings had been made, it was free of debt and last year seventy-four were in residence. The enrolment was 154. Good faithful work had been done and the future looked bright with promise.

Dr. Palmer pointed out the urgent need of more residential and class room accommodation and hoped that within the near future an annex could be built to meet these needs.

Ladies' College
The anniversary exercises of Mt. Allison Ladies' College were held in Fawcett Hall tonight. The attendance was large and program was unusually good. Police program was successfully carried out.

Rev. Dr. Campbell in making his report for the year said that taking into consideration the number of students, their average academic standing, their school spirit, and appreciation of high standards, the year ranks amongst the best in the history of Mount Allison. The faculty expresses profound gratitude to God for the health record of the year. No interruption of the work, no long sojourns in the hospital, and the student body also throughout the year to enter fully into work and pleasure connected with college life.

THE ST. JOHN LONGSHOREMEN BETTER OFF

Had much better winter than those in Halifax—Employment steady at this port.

"While the number of boats which entered the port of Halifax last winter was large the amount of business they brought to the port was small, and our longshoremen had less employment than usual," said John T. Joy, of Halifax, president of the Atlantic Coast Division of the International Longshoremen's Union, who arrived in the city yesterday to attend the conference of the district leaders.

"Most of the boats which came to Halifax last winter landed a few passengers and went off again in an hour or so," he added. "This class of boats give no employment to the longshoremen. Many of the immigrants coming to Canada carry their baggage in their hands."

"This winter most of the immigrants were from Southern Europe. On the other hand every boat which left for the old country carried a fair list of British people. It is doubtful whether the country has any reason to be satisfied with the exchange."

"In St. John conditions in the winter are better for longshoremen than in Halifax. As soon as the season of navigation opens at St. John there starts up a volume of traffic which keeps fairly steady with a little spurt in the spring, and the longshoremen here have, under normal conditions, good opportunities of fairly regular employment. With us in Halifax there is little work for the longshoremen during the better part of the winter, and then in the spring there is a rush of boats, and extra work for a few weeks."

"In Halifax there is a large amount of work going on at present in connection with the new terminals, but the trouble is that more people have been attracted to the city by the hope of work than can be provided for. These big jobs don't give as much employment as people imagine, because machinery is used so extensively."

Mr. Joy stated that in spite of the depression all over the United States and Canada the Longshoremen's International Union had made great increases in its membership during the past year. "In view of the fact that a depression immediately affects the export and import trade and reduces the opportunities of employment for longshoremen the gains made by our international are remarkable," he added. "A movement towards organization is sweeping all over the labor world."

COAL RICH IN HEAT VALUE

This Kind Has the Maximum of Burnable Matter With the Minimum of Ash—it is Clean Coal.

All coals are much alike in appearance, but there is a great difference in the work they do. Low grade coal will burn out quickly without much heat except in starting. High grade coal burns gradually and evenly and holds its heat for the longest time. The special American anthracite being imported by the Consumers Coal Co. is a coal rich in heat, lasting in effect and leaves a surprisingly small amount of ash to go to the ash barrel. Just at the present time, they are quoting lowest summer prices on all sizes of anthracite. Householders will do well to inquire about this coal and get prices, if they anticipate filling their bins through the summer for winter use. Consumers Coal Company's address is 321 Charlotte street, just below Britain street. Phone M-2670. This American anthracite is clean glossy coal and means more than the ordinary value to the ton.

MATTERS POLICE COURT

In the police court yesterday afternoon Clement Watts, a colored man, was charged with assaulting another colored man named Preston Manifold. It seems that they had a fight over a bottle, with the result that the complainant received a damaged eye and lost a tooth. The defendant had two of his fingers badly bitten. The prisoner was remanded to jail.

Daniel Collins was charged with interfering with the gateman at the C. E. crossing on Mill street. Patrick Sheehan, the complainant, testified that he was afraid of Collins who walked about the place at night, and appeared as if he was going to strike the witness with a cane. As a result Sheehan said he could not look after the gates and keep a watch on the defendant.

Yardmaster Thatcher Irvine testified that a few days ago while shutting a train of cars, he was obliged to stop the train near the crossing as the gates were not down, and on investigating the matter he found Collins had been bothering another gateman named Blair and the latter said he could not look after the gates on account of Collins interfering with him. Collins was remanded. The magistrate said he would allow Collins out on good bail being produced, the conditions being that if he did not behave himself he would be liable to a fine of two hundred dollars.

HEART WAS SO BAD Could Not Do Her Housework

Many women get run down and are unable to look after their household duties owing to the heart attack becoming impaired or the nervous system unstrung. To all such sufferers Milburn's Heart and Nerve Pills will give prompt and permanent relief.

Mrs. Thomas McVie, Saltcoats, Sask., writes: "I thought it my duty to write and tell you how much your Heart and Nerve Pills did for me. My heart was so bad I could not sleep, eat nor walk about the house. I could not do my housework at all, and what my husband could not do had to go undone. I had two small children depending on me besides three men to cook for, and I worried like mad to be able to do anything. My husband had taken some of your pills some years ago, and insisted on me trying them, so I started, and before long I had taken them two weeks. I was considerably better, and before I had taken two boxes I was doing my own work again. Any one suffering from heart or nerve trouble should just give your pills a trial. If anyone cares to write me I will gladly give them all the information I know concerning your wonderful medicine."

Milburn's Heart and Nerve Pills are 50 cents per box, or six boxes for \$2.50 at all dealers, or mailed direct on receipt at price by The T. Milburn Co., Limited, Toronto, Ont.
