I will also try to lighten the taxes upon the country, as well by introducing greater economy in the public service, as by every other means in my power, for I believe that our power to successfully compete with our neighbors in manufactures and all other industries mainly depends upon our ability to keep our people free from burthens, and, by consequence, to make the cost of living cheap in the Dominion. I will labor to bring about freer trade relations with our neighbors, the citizens of the United States.

I will support whatever I believe will be for the interest of the Dominion generally and for yours in particular; and I respectfully solicit your support. our support.
