his knife into a parish legend which made
it out that the church was planned by day
and built by night by invisible powers.

UNDER THE SNOW.

In to the heart of the sweetest rose,
Sharp thorns will grow;
And over the fairest, sunniest path,
Will drift the snow.

London's population is three times
greater than that of New York, and its
area five times greater, yet the expense
of running the city of New York during
the present year is estimated to exceed
that of London for the same time by
about \$2,500,000. The debt of London
is \$32 per head for each inhabitant; that
of New York, \$113, or nearly four times
as much.

Does anybody know the standard
height of a man? We confess that we
don't. It is all so singular that the rules
and regulations of millwrights have no
admission of any standard at all, and yet
a common reference to a standard,
and it is made applicable to thousands
of situations which, to an ignorant party,
seems exceedingly inappropriate. It ap-
pears from this application as most gen-
erally used that every proposition which
shorts of his expectation by just the
height of a man's stature, advances the
interests. In other words
It is not, by a man's height, what he ex-
pects, but what he actually gets.

NOTES AND NEWS.

UNITED STATES.
In New York soup kitchens are now in
full operation, and Wednesday over 100
persons were furnished with good beef
soup.

At Skaneateles, Virginia, they had a
fair for the purpose of procuring horse for
the fire company, and they say the ladies
contributed extensively. We don't see
what kind of use the horse contributed by
the ladies could be to a fire company.

"One publishing house in New York City
has circulated a single report on rag
sheet to the extent of 20,000,000, and
has made it into a sixty languages, during
the last fifty-seven years. The book is
known as the Bible, and the American
Bible Society did the publishing.

What is Mississippi coming to? The
other day, the Chief Justice of her Su-
preme Court drew a knife and went for
an associate judge who suggested the pro-
priety of consultation before giving de-
cisions. Thanks to the intervention of a
third judge the matter did not blossom
into assassination.

Birthmarks on babies are often chroni-
cled, but a hen at Norwich surpasses all
such variations. She laid an egg the other
day which was numbered one hundred
and twenty-four, and it is now believed
the local organ of this remarkable prod-
uct of her production. Like Oliver Twist,
we are anxious for more.

In Philadelphia, at a meeting of the
Radical Club, Wednesday, Elizabeth Ca-
yton made an address in which she
expressed prayer against temperance. She
showed that it is no more believed than
mobs and urged women to obtain the
ballot, when the abuse of liquor could
be materially decreased.

A French detective who mixed a song
the rioters who were driven from Tomp-
kins Square, New York, some time since,
both before and after the riot, in his full
report to the Chief of Police states that
they are almost all Communists who ad-
vocate the sacking of the houses of the
wealthy, and Mr. May, who is their
leader, told them the day after the riot
that it had been a great success, as it led
showed that the workingmen would bring
them even to death, and that their or-
ganization was made sacred by blood.

They say that there will be ready here-
after by organization and with arms to
overcome the plutocrats.

Captain John Wright of the steamer
Gastonia, which formerly ran to New
Orleans, dying, left property to the
value of \$150,000. His stewardess with
whom he had lived for his wife's death,
and by whom four children were born,
put in a claim for a share of the es-
tate. The six legitimate children brought
off for \$12,000, she signing a release.
She has now, however, begun a second
suit, claiming that the four children
are entitled to a division in the estate. Wil-
ness has testified to Wright's speak-
ing of her as Mrs. Wright.

A New York lady blamed all over with
diamonds as a Fifth Avenue party, last
week. On each of her shoulders she had
four stars, the size of silver half dollars,
and a diamond necklace of magnificent
proportions. There was a diamond
band on her brow. She had dia-
mond earrings and a diamond neck-
lace of diamonds, about the size of the
palm of the hand. From them depended
lines and curves of diamonds reaching to her
waist, round which she wore a dia-
mond girdle. On the skirts of her dress in
front were two large peacocks, wrought
of lines of diamonds. There were re-
serves of diamonds on her slippers.
There were diamonds in her hair, and in
every variety of form, all over her
dress and person, wherever they could
be artistically placed.
