Apply 161 Queen St. North.

## CONSERVATION

is of more importance to the country to-day than ever.

Do Manufacturers Realize

the necessity of better Fire Protection? Do they realize

WHAT FIRE PREVENTION MEANS?

Fires during 1918 in Industrial Plants numbered only 486 or 5 per cent. of the total number for the year; but these 486 fires caused a loss of \$7,565,322 or 48 per cent. of the total Fire Waste of the Province.

Cleanliness, Order and Forethought

are important factors towards reducing this preventable waste.

Manufacturers should provide better and more systematic inspection and Watchman Service.

More efficient fire fighting equipment—Chemical Fire Extinguishers and Automatic Sprinklers. In 15,000 fires, tabulated by the N.F.P.A., Boston, where Automatic Sprinklers were installed, 85 per cent. were put out by one Sprinkler Head.

Fire Prevention Day—October Ninth
