

That QUEBEC MAPLE SYRUP

We spoke of last week has proved to be exceptionally nice. Keeping it in cold storage in Quebec, has preserved its natural flavor. One would almost think it had come just recently from the trees. Price is no higher either than the ordinary kinds.

A Hot Water Cure.

We all know what pain is—and yet we don't. We know what its sensations are, and that it can be cured by two agents—drugs and heat. If heat will answer it is the better, of course. Drugging pain may be temporary relief only. It heat helps at all it is also curing.

HOT WATER BAGS

Are a potent aid in a hundred ills. Emergencies and pain will come where nothing will answer so well. Can be applied anywhere. We have all sizes of the best kinds at prices just as comfortable as the bags.

PAVING NOTES

Jimmie Gould, local superintendent of the Warren Bros' Bituminous Paving Co., wagered a hat with the Chairman of the Board of Works that he would be the first of the paving contractors to finish up, and is now claiming his hat. He intends having a silk one.

The Queen St. pavement was finished between three and four o'clock on Saturday afternoon, and in less than 20 minutes after it had been opened fully 40 rigs passed over it. The pavement had heaved a little at the corner of Harvey street, where the gas main had gone through, but that is being fixed to-day.

The Dominion Paving Co. were at work on their curb this morning. Now that Queen is finished there will be no lack of men. The company received five cars of brick this morning.

King street will likely be finished in a few days.

All reading notices of local announcements must be received at this office not later than noon of the day on which it is desired that they appear in The Planet.

The Use of Gas Coke for Fuel.

A great many people do not know the advantage of using gas coke as fuel in furnaces, ranges, coal stoves, or, in fact, in any apparatus that will use coal as fuel. The following letter will give the experience of one of Chatham's prominent business men, who has made a test of the value of Coke as compared with Coal. This letter will explain itself and will be followed by others of a similar nature from other customers. Coke will be delivered by the Gas Company in any quantity, promptly. Let us have your order for a trial load.

Chatham, Oct., 31, 1903.
The Chatham Gas Company, Limited, City:

Gentlemen,—I have much pleasure in testifying to the advantages of using Gas Coke as a heating fuel. I have used it for the past two seasons in my hot water furnace at the house, and find it very economical, and at the same time easy to regulate.

I may say that last winter I made a test of one ton of coal at \$7.00 per

ton and the same money's worth of coke, and found that the \$7 worth of coke lasted fully one-third longer. May say that the weather conditions were fully as severe, if not more so, during the time I used the coke.

Yours sincerely,
(Signed) C. AUSTIN.
