

The golden noontide of the year  
Proclaims a fruitful harvest year.

PEOPLE have no more right to become dyspeptic and remain gloomy and miserable, than they have to take poison and commit suicide. If the stomach becomes weak and fails to perform its functions, Burdock Blood Bitters will speedily remedy the trouble.

BEWARE of little things! A black seed not larger than the faith of Bob Ingersoll in the inspiration of the Bible will grow an onion that may taint breath enough to break up a betrothal, ruin a school, and shatter the good intentions of a sewing circle.

THERE is a young maid of St. Croix Who is "gone" on a clever young boix;  
They swing on the gate  
Both early and late,  
And their lives are o'ergushing with joy.

WHAT physician was ever known to possess an infallible cure for headache? Burdock Blood Bitters do more than the doctors. If you are sceptical try it and be convinced. Trial bottle only ten cents.

THEY met, 'twas on the street—  
"Oh, such a bonnet!" thought the one—  
The other thought, "What feet!"  
Yet they did talk—  
Together walk—  
And kissed each other's cheeks—and chalk.

WHEN a bee brings pollen into the hive he advances to the cell in which it is to be deposited and kicks it off; another bee, one of the in-door hands comes along and rams it down with his head, and packs it into the cell as the dairymaid packs butter into a firkin.—*John Burroughs.* We would prefer not to have any dairymaid pack our butter that way.—*Traveller's Record.* If our butter must be packed in that way, let it be done by a bald-headed dairymaid.—*Rome Sentinel.*

DROPSY is essentially a watery condition of the blood, dependent upon disordered kidneys. Burdock Blood Bitters are strongly diuretic, and consequently the best known remedy, acting as it does upon the entire secretory system. Trial bottle ten cents.

EVERYBODY has heard of the jolly Dutchman who, when the steamboat was likely to sink, succeeded, after much trouble, in finding a like preserver large enough to fit him. While he was trying his best to blow it up, a young fellow standing by said:—"You can't fill that with wind—it leaks. Don't you hear it hiss?" "Iah dot so?" he replied. "Vell, I tinks, den, I better keep the vind myself."
