

## PREFACE.

---

THE Publisher places this first edition of his Toronto Directory in the hands of the public with some confidence that it will be found a serviceable work, and that the constant use of it as a book of reference will establish its thorough accuracy.

A glance at the work itself will show that its arrangement for reference is complete, and that the fullest details have been furnished as regards public and local Institutions.

An entirely new edition of the Directory will be issued annually, each house in the City being visited as if for a new work ; and the Publisher confidently trusts that when his canvassers come round in succeeding years, no further recommendation will be needed than the useful purposes which Caverhill's Toronto City Directory for 1859-60 will then have served.
