## Get a Big New Overland For the Big New Year

Nineteen fifteen is just a stone's throw away.

The most conservative estimates promise the biggest, best and most prosperous year you have ever had the pleasure and privilege of living through.

So now, as never before, you need a car.

And what is more—you need an Overland.

Here's why.

The Overland offers the greatest intrinsic value for the very least amount of actual money.

*Regardless of price*—it is one of the handsomest cars ever built. The beautiful full stream-line body is one of the most admired designs of the season.

*Regardless of price*—it is one of the most comfortable cars ever built. The long underslung rear springs make it ride with absolute ease and smoothness at all times. So do the large tonneau, deep and soft upholstery, and large tires.

*Regardless of price*—it is one of the most convenient cars ever built. It is electrically started and electrically lighted. All of the electric controls are conveniently located on the steering column. You can operate every button without changing your driving position.

*Regardless of price*—it is one of the most complete cars. There are demountable rims, with one extra, a high-tension magneto,

built-in ventilating type windshield, mohair top and boot, magnetic speedometer and curtain box. In fact, every modern improvement.

*Then remember this—*

The first cost is not only considerably less, but so is the operating cost. In both directions you save money.

Also remember that every Overland is backed by a world-wide service.

So by all means get an Overland—and get it now.

Then, and only then, you'll make 1915 just that much bigger, better and more delightful for your whole family.

Act to-day.
