

# Green.

The popularity of green is strongly in evidence. Green is the color of the season, and may be seen everywhere. Green shutters are still in vogue, and the favorite brands of the **Canada Paint Company** are preferred. The brands are:

**MISTLETOE,  
FRENCH PERMANENT,  
ROYAL PERMANENT, AND  
CROWN IMPERIAL.**

The Canada Paint Company manufacture their own dry colors and guarantee satisfaction. Painters and house-owners should examine the package carefully and insist upon the imprint of

The **CANADA PAINT CO'Y, Ltd.**

REMOVED.

## LOUDEN'S GOODS ARE GOOD GOODS.

A prominent dealer writes: "I have never sold any other goods that have given such satisfaction as your Hay Carriers, and I have made more money out of them this year than I have out of binders."

Another says: "I have handled all makes, but Louden's are the **BEST.**"

We make twelve different styles of Hay Carriers, all up-to-date. Our Double-Tread Barn-Door Hangers are "the best on earth." Dealers who want "A Good Thing"—something that will sell and give satisfaction—should write at once for the agency. Catalogue and prices free on application.

## AMERICAN-ABELL ENGINE and THRESHER CO. LIMITED.

## Threshing Machinery OF THE Highest Grade.

**AMERICAN-ABELL ENGINE AND THRESHER CO., LTD., TORONTO.**

**NORTHWEST AGENCY: 760 MAIN ST., WINNIPEG, MANITOBA.**

### NOTICE.

**THRASHING MACHINERY.**—The American-Abell threshing machine has had a long and successful record in the Northwest in the last few years. By owning his own machine, a farmer saves the big threshing bills. The machine can be operated at a small cost of a large gang necessary for a large outfit. It is easily moved on any roads, making it pos-

sible for those in hilly sections to grow grain in a small way. We refer our readers to the advertisement of the Belle City Mfg. Co., Racine, Wis., found on another page. This firm has branch offices through the Northwest. Write to them for printed matter and interested in the cost of a machine, send for the address of their nearest Northwest branch.

### "SUNSHINE" FURNACE.

Burns coal, coke or wood.

Wood can be used in spring and fall, and coal in severe winter weather.

Large feed-doors will admit rough chunks of wood.

Will extract more heat from the same amount of fuel than any other heater, and no other good furnace is so'd so cheap.

### "CORNWALL" STEEL RANGE.

4 or 6 cooking holes.

Burns coal, coke or wood.

Large fire-doors will admit rough chunks.

Oven is extra large.

Has every latest improvement, and sells at from \$13 to \$25 less than any imported steel range.

Catalogues on the above, or any other lines of our goods, will be sent **FREE** to any address.
