### GREATEST CRISIS OF THE WAR

New York, Feb. 1.—An Associated Press despatch from Washington this morning says:
Ruthless submarine warfare inaugurated today by Germany brings the United States face to face with what President Wilson has solemnly declared to be the only alternative to recognition of American rights on the high seas—a break in diplomatic relations, with its accompanying grim possibilities.

Washington awoke this morning with a shiver to a realization of this stituation. It had come so suddenly in midst of lingering hopes for an early peace in Europe and speculation over what might be the President's next move toward that end that there had been little time for deliberation. In fact even members of the foreign relations committee of the Senate read for the first time this morning in the newspapers the text of the warning handed to Ambassador Gerard at Berlin and delivered to the State

ome at last midnight, reached here lations early this morning. There is every indication that whatever the American Government does will be done quickly. Apparently it is agreed the situation back practically to that there are but three courses where it was upon the original pro- tween the United States and another open-handing Count von Bernstorff clamation by Germany two years ago nation. his passports without further ado, of a war zone around the British sending at once a warning to Ger-Isles. That proclamation called for many that she will violate American the famous "strict accountability" the reserved liberty of action is to rights at her peril, or awaiting the note from the United States.
