A BIG FAMILY.

New names have to be designed every year to accommodate the Disease Family, but they all revolve around one cause—The Stomach.

The receptacle of all you eat or drink cannot help but get clogged—very few escape. How can they? Just think of what lands in the stomach during a few hours—All sorts of things—sour, sweet, acid, starchy, light, heavy, vegetable and animal; all this raw material is tumbled into the stomach without much thought as to the order of its going, every particle of which has to be worked over, digested, and converted into food for nerves, blood, brain, kidney, liver and bowels—for every tissue, cell and fibre of the body. Sometimes the stomach is overloaded, shocked and deranged and cannot do its work properly, and right here begins the starting point of disease, as no organ receives proper nutriment, and usually the weakest cry out their warnings. That's why a well stomach means a well body, and that's why ANTI-PILL has such a marked effect. It soothes the irritated linings of the stomach, and so acts on the mucous membrane that the necessary supply of gastric juice to secure digestion is assured—ANTI-PILL, the Great System Treatment makes a well stomach.
