assessment for this purpose and it would cost about \$850 for 1000 feet.

Ald. Williston thought it was false economy to cut down the quantity of hose, as it was required, especially in some localities, where the hydrants were far apart.

The original motion was carried.

Ald. Williston reported from the committee to look into matter of crib work between the Public and Park wharves that they had gone fully into the matter and would not recommend that work be done as no provision had been made in the assessment and work would require \$350 or \$400, which would take money from Public Works needed for other important repairs. This report was adopted.

The following accounts were passed and ordered to be paid.

Fred Gough,	45.05
Anslow Bros.,	79.10
H. Williston,	45.00
P. Hennessy,	45.00

The council then adjourned to meet at 8 o'clock, Thursday.

A MYSTERY.

Who Murdered Wood at New Mills—Inquest Being Held.

Campbellton, June 24.—The inquest in the Wood case was continued today at New Mills. Seven or eight witnesses were examined, but nothing of an incriminating nature was brought out against anybody. However, several new facts were brought to light, which rather deepened the mystery surrounding the death of Wood.

Dr. Price's statement corroborated that of Dr. Ellis in regard to the Post Mortem. He told of the second attempt to locate a bullet in the wound in the shoulder as already reported. The most important testimony was that given by Arthur Corrigan, the man who has been in custody for the past few days, having been arrested at Bathurst. He is a stranger in these parts, having recently come from the United States. His statement was substantially as follows: He was a passenger on the train on which Wood went to New Mills the evening before his death. He got off at New Mills and after making inquiries for a boarding house, was directed to Prescott's cook house. On arriving there a man asked him where he was going to sleep and being told that "he did not know," he offered to share his room with the witness, there being two beds. Witness accepted and when they went to the room witness noticed the man place a pick handle in the corner of the room.

After sleeping for a short time witness awakened and saw his room mate going in the direction of the pick handle and when he discovered that he was seen he turned and got into bed. When witness awoke in morning the pick handle was missing. He did not know the man's name, but could identify him.

Some of the other witnesses were squaws who live in the Indian village, which Wood visited the night before his death. Their testimony showed that Wood had been drinking, although not very drunk; that he had been in one of the houses till after 11 o'clock, when he left, saying that he was going to see Alex. Juncas, who, he said, had some ill-feeling against him.

It was also brought out in the evidence that when it was known on Friday morning that Wood had been probably killed, a man by the name of Gagnon, stated that he had often prayed that Wood would be killed on account of his being the ruin of his sister.

It was also shown that Wood had his coat off when he received the wound in the shoulder, there being no hole to correspond in the coat, while there was a hole in the two shirts. The inquest will be resumed on Tuesday. About thirty witnesses will be examined, so that it will be some days before the investigation has been concluded.

EATON-JOHNSTON

On Wednesday at nine o'clock a quiet wedding took place at the residence of Mr. and Mrs. J. Johnston, when their youngest daughter Sadie was united in marriage to Mr. Percy Havelock Eaton of Parboro N. S. While Mrs. Gettiss was playing the wedding march the bride entered the room on the arm of her father. She was attired in white voile over silk with veil and orange blossoms and carried a bouquet of white roses. The ceremony was performed by the Rev. H. Arnott assisted by Rev. W. S.
