### The True Test

of value is not the price you pay but the style, comfort and fit you get. Don't imagine that all tailors work is alike. Nor the goods alike in garments sold at similar prices. Not at all. Good, bad and indifferent describes it. Some excel. We make it a point of honor to give value and perfect fit. Can we do more.

## RAISING DEER FOR MARKET

Government Official Makes Report and  
Advocates Change in Laws

### DOMESTICATED DEER.

It is quite probable that some day the deer will be as common and as easily raised as the pig or the cow.

Such is the belief of Dr. H. H. Henshaw, of the United States Biological Service, who, in an exhaustive report received by the government, has shown that the raising of deer for market is a profitable business.

Mr. Henshaw reports that the deer is a hardy animal, and that it is possible to domesticate deer for the market. To the average American the report of Mr. Henshaw will come as a surprise, for in nearly every section of the country deer are regarded as a nuisance, and are killed for the sake of the bounty.

### Rivals

"I wish that you'd explain to me why mistress loves the cat. I cannot grow—I am, you see, too well behaved for that."

"He doesn't bark or show his teeth. The pussy cat is pure."

"And yet I know he's all alive. With jealousy absent."

**He Found Out.**

Tommy ran excitedly into the room, eager to impart information.

"Oh! where did you get all that paint on your hands and clothes?" exclaimed his mother.

"Oh, that!" returned Tommy, indifferently. "I wanted to see if the people cross the street were telling the truth. They have a sign that says 'Paint'."

"And yet I know he's all alive. With jealousy absent."

## FALL STYLE, 1908

## A TALK ON CORSETS

Your new Fall Costume will not be complete without a pair of the famous **BIAS FILLED CORSETS.**

**MISS CAMPBELL, the expert Corset-ierre is now with us and will be pleased to fit you, demonstrating the wonderful effect of Bias Corsets.**

## WHY THEY ARE THE BEST

No need to dwell upon the discomfort of an ill-made or badly fitting Corset. Every lady knows exactly how annoying it is when the corset bends at the side and refuses to come back to the original shape. Most straight front corsets either bend or break within a few weeks. Bias filled corsets will not break or bend out of shape. They adapt themselves to the figure so easily and with such comfort that women who wear them for the first time invariably imagine they are wearing a larger size than usual. Not so, however. It is simply that the bias filling follows the curves of the body so that its movements are as free as they would be if the corsets were not worn at all. They are also made in every size and modelled to fit every style of figure. Whilst there are no heavy steels to press on the sides, the Bias Filling is scientifically arranged on each size and style to give the most support with the least resistance. Thus support and absolute comfort are at once secured.

## A Boon To The Stout

After wearing a pair of Bias Filled Corsets not one lady in a hundred will ever go back to the old style of straight filling. More especially will this be so with the stout ladies. No stout lady has ever known absolute comfort unless she has worn a pair of the Bias Filled.

## For Style

It has been demonstrated beyond a shadow of a doubt that Bias Corsets are the leaders for style, fit and finish. The manufacturers have designers and cutters of long experience. The styles are of the most up-to-date character. To sum up they are admitted to be the crowning point of corset excellence.
